## TOP STORY

### Las Vegas Resort Testing Discreet Weapons Screening Device

By Jessica Davis

In the wake of October's Mandalay Bay shooting that left 59 dead, a hotel in Las Vegas has begun testing a discreet weapon-sensing security device. The device is called the Patscan Cognitive Microwave Radar and is currently installed at Westgate Las Vegas Resort and Casino's employee entrance.

### Vicon's New H.265 Cameras Reduce File Size by Half

Our extensive line of H.265 cameras offer the simplest way to reduce bandwidth and storage when used as part of a VMS solution. The

lower bit-rate comes with no degradation to video quality, decrease to FPS or recorded resolution. The end result is lower overall cost of system operation. We offer domes, bullets and turrets, in 2MP to 5MP models. Vicon...Simple Solutions for a Complex World. [Learn more.](#)

## NEWS

---

### [Festive Security](#)

**By Gregg Hamm**

Reacting to tragedies in London and Berlin, among others, where vehicles were used as weapons against large numbers of pedestrians, the Fremont (Calif.) City Council decided to heighten protection for its citizens from errant drivers and terrorist vehicles driven at events such as their Fremont Festival of the Arts, Niles Antique Faire and Flea Market, Festival of India, parades and other affairs. Many of these events attract large numbers of people and, of course, gathers them into confined locations. For instance, the 300,000 person Fremont Festival of the Arts, one of the largest street festivals west of the Mississippi River and touted as California's premiere art, wine and music festival, is no small undertaking. The threat of an attack is a real possibility.

---

### [Survey of U.S. Physicians Reveals Cybersecurity and HIPAA Concerns](#)

**By Jessica Davis**

More than four in five U.S. physicians (83 percent) have experienced some form of cyberattack, according to new survey research released by Accenture and the American Medical Association. The findings show concerns in the health care sector about cybersecurity support and data security protections, as well as lingering questions about the Health Insurance Portability and Accountability Act (HIPAA).

## Making Data Driven Decisions With a Smart ID Card Top 10 Reasons:

Top 10 Reasons Why Schools Need a School Safety and Operations System.

Safety begins with a smart ID card that automates attendance in the building, classroom or bus. Use it to pay for lunch. Identify and record who wants school access with visitor management. Staff simply tap their ID cards to gain access to secure doors.

(System integrates, pushes and pulls data from your SIS, i.e. PowerSchool)

It all begins with a smart ID card - the ScholarChip One Card

## Making Data Driven Decisions With a Smart ID Card Top 10 Reasons:

Top 10 Reasons Why Schools Need a School Safety and Operations System.

Safety begins with a smart ID card that automates attendance in the building, classroom or bus. Use it to pay for lunch. Identify and record who wants school access with visitor management. Staff simply tap their ID cards to gain access to secure doors.

(System integrates, pushes and pulls data from your SIS, i.e. PowerSchool)

It all begins with a smart ID card - the ScholarChip One Card

We had Raptor installed with our new High School 4 years ago, works great. We are planning on adding to our Middle School next year.

**Subject:** Secure Check in Process Webinar

**Date:** Tuesday, December 5, 2017 at 10:51:26 AM Eastern Standard Time

**From:** John Ferola

**To:** dkelly@revere.mec.edu

Hello Dianne

As follow up to my previous email, I would like to invite you to attend one of webinars regarding the LobbyGuard product. I believe that this webinar would be of great value to Revere.

Installing a school visitor management in your school sends a message to all visitors that safety is a top priority. These security systems are simple yet powerful solutions that streamline the visitor sign-in process. Track everyone who enters your school/campus and help stop threats at the door. The system will make it easy for you to track sign in time, sign out time, reason for visit, who was visited, and much more.

### **Run Background Checks on all Visitors**

Our kiosks and sign-in solutions come equipped with Visitor Management software, which runs background checks on all who attempt to sign in to your school. Stop sex offenders, criminals, or make a custom list of banned individuals for your school.

## Simplify School Visitor Management

Get rid of your paper sign in and visitor logging system. We offer a faster, smarter way to manage visitors and know who is in your school.

### Students

Students who check in late or leave early are easy to record, process, and report on. Multiple export options make it easy to import this data into your Student Information System, reducing your school's labor costs.

### Guests

Instant background checks work with national sexual offender databases and customized lists of known local offenders and unwanted guests. Tracking volunteers and parents is easy, with records available from anywhere on the web.

Please join us for a webinar to learn more about how we can help protect your students and staff.

# Why Accurate Label Designs?

### Add To Your School Spirit

Our labels are customized with your school name, mascot and the colors of your choice.

### Pay Less

We are the largest manufacturer of customized school labels in the country, so our prices are the most competitive in the industry. We will match any competitor's price with the same product.

### Have Tons of Options

We offer more label colors, text colors, and color combinations than any other label manufacturer.

# Visitor Management, it's more important than ever.

**Some schools have a very lax visitor policy, placing students and staff at risk.**

**Visitor Identity:** It's up to you to know who wants access to your school, if they should be permitted into the building, and if they are authorized to pick up a particular student. Your Visitor Management system must have accurate data, check visitor identity every day, every time.

**School Safety:** One of the most vital aspects of safety is knowing who should be allowed into your school. Schools can have hundreds of visitors every day: vendors, volunteers, and those who are picking up students. Visitor management helps you make incredibly important security decisions by supplying critical background data. Don't let school safety be left to chance.

# Visitor Management, it's more important than ever.

**Some schools have a very lax visitor policy, placing students and staff at risk.**

**Visitor Identity:** It's up to you to know who wants access to your school, if they should be permitted into the building, and if they are authorized to pick up a particular student. Your Visitor Management system must have accurate data,

check visitor identity every day, every time.

**School Safety:** One of the most vital aspects of safety is knowing who should be allowed into your school. Schools can have hundreds of visitors every day: vendors, volunteers, and those who are picking up students. Visitor management helps you make incredibly important security decisions by supplying critical background data. Don't let school safety be left to chance.

# Why Accurate Label Designs?

### Add To Your School Spirit

Our labels are customized with your school name, mascot and the colors of your choice.

### Pay Less

We are the largest manufacturer of customized school labels in the country, so our prices are the most competitive in the industry. We will match any competitor's price with the same product.

### Have Tons of Options

We offer more label colors, text colors, and color combinations than any other label manufacturer.

**Subject:** Secure Check in Process for School Districts  
**Date:** Tuesday, October 31, 2017 at 2:17:03 PM Eastern Daylight Time  
**From:** John Ferola  
**To:** dkelly@revere.mec.edu  
**Attachments:** ii\_15f737c97e690a73, ii\_15f737d071d6a023, LobbyGuard to Protect your School.pdf

Hello Dianne Kelly

I am your Konica Minolta Education Account manager. I visit school districts across the commonwealth and one thing I have noticed is that the check in process varies from district to district and sometimes school to school in a district. I would like you to review the information below, as this solution will streamline and standardize your check in process. This process also ensure that they visitors coming to your location, are vetted and are cleared to be in your facilities.

I would like to spend a few minutes with you discussing how Konica Minolta can help Revere. Please feel free to reach out to me directly to schedule time to review the capabilities of this product.

*Wireless*  
A Revolution in Visitor Management

## LobbyGuard Optio

The LobbyGuard Optio Visitor Management Kiosk contains everything you need to track visitors entering and leaving your building in an attractive design that can be installed anywhere in minutes.

The Optio provides the flexibility of WiFi and battery power plus a broad range of product colors and mounting options to blend into any school, lobby or front office environment.

Increase building security and reduce workload on front desk personnel with the self-service convenience of the LobbyGuard Optio.

### Wireless Visitor Badges

Quickly print personalized badges to easily identify visitors. The LobbyGuard Optio's included WiFi visitor badge printer provides "install-anywhere" flexibility.

### High-Res Camera

Photograph your visitors for an accurate record of the visitor's appearance the day of the visit.

### Driver License Scanning is Built-In

LobbyGuard Optio scans any state driver license with 100% accuracy in less than one second with the included bar code scanner.

### Customize your Optio to blend in with your office setting.

Choose from a selection of 7 different colors to match your organization logo or school colors, or to simply stand out so visitors take notice.

### LobbyGuard Installed.

The LobbyGuard Optio is pre-installed with the LobbyGuard Visitor Management System, the most powerful and flexible visitor tracking software on the market today. LobbyGuard brings a wide range of security and front-office automation features to your lobby environment, including instant visitor background checks.

Need to save desk space? Floor and wall mounting options are also available for the LobbyGuard Optio.

24/7/365 access to your visitor records from anywhere on the web via the LobbyGuard FrontDesk web site, the ability to design your own visitor sign-in workflows and much, much more.

#### Hardware Specifications

Camera: 8MP High-Definition  
Dimensions: 11"H x 13"W x 10.5"D  
Weight: 9 lbs.  
OS: Windows 8.1 64-bit Professional  
Warranty: 1 year depot warranty on all parts and labor.  
Optional 3-year overnight replacement warranty available.

## Daily News from ASIS

### [Great Campus Security Solutions at ASIS](#)

**By Lindsay Page**

Last week at ASIS, several companies had great products for the Campus Security vertical. Here are just a few of the best items we saw while attending the show.

### [All Good Things Must Come to an End](#)

**By Sydney Shepard**

ASIS 2017 opened its exhibit doors in Dallas last week, welcoming hundreds of attendees to check out the leading companies in the security industry and their top-of-the-line products. The show was a jam-packed four days of exciting conversations, product showcases and integration announcements but all good things must come to an end.

Or maybe not.

ASIS 2017

Sept. 25-28  
Dallas

[Editor's Note: Technology Reaching Into the Cloud](#)

## Daily News from ASIS

### [Everything is Bigger \(And Better\) in Texas](#)

**By Sydney Shepard**

At one point in your life, you've probably heard the saying, "Everything's bigger in Texas." After attending two full days of ASIS 2017 in Dallas, Texas, I would have to say that phrase rings true for the security solutions we've seen on the show floor this week.

ASIS saw hundreds of attendees flooding into the booths of security companies from around the country bringing their top-of-the-line innovations, integrations, partnerships and solutions to the table. At this show, I've noticed the biggest announcements, releases and demos since I started in the security industry.

### [School Vulnerabilities Explained at ASIS](#)

**By Lindsay Page**

Keeping students, faculty and visitors at schools are a top priority for every school district. Having a

vulnerability assessment done at a school campus can make a huge difference in keeping everyone safe while there. In fact, having a professional come out to test the systems you have in place can make a huge impact. Many schools aren't aware that something as simple as leaving a coffee mug in a classroom can put someone at risk.

## [ASIS Sees New Solutions for Protection from Severe Weather and other Threats](#)

**By Lindsay Page**

For any company in the security industry, keeping people safe from any threat is the top priority. With recent weather events such as Hurricane Irma and the earthquake in Mexico, seeing solutions at ASIS that could offer protection during those events - and others - was an interesting sight to see.

# Visitor Management, it's more important than ever.

**Before you purchase a K12 Visitor Management system, there are many features to consider.**

**Visitor Identity:** It's up to you to know who these people are, if they should be in your school, and if they should be picking up a particular student. Your Visitor Management system must have accurate information and work, every day, every time.

**School Safety:** One of the most vital aspects of safety is knowing who wants access to your school. Schools can have hundreds of visitors every day: vendors, volunteers, and those who are picking students up. Visitor Management is an incredibly important part of school safety and not something that should be left to chance.

# Visitor Management, it's more important than ever.

**Before you purchase a K12 Visitor Management system, there are many features to consider.**

**Visitor Identity:** It's up to you to know who these people are, if they should be in your school, and if they should be picking up a particular student. Your Visitor Management system must have accurate information and work, every day, every time.

**School Safety:** One of the most vital aspects of safety is knowing who wants access to your school. Schools can have hundreds of visitors every day: vendors, volunteers, and those who are picking students up. Visitor Management is an incredibly important part of school safety and not something that should be left to chance.

**By Sydney Shepard**

Finally, a trade show that is in Security Today's backyard! The ST team is so incredibly excited to have y'all out in Dallas to view the most innovative and spectacular solutions, software and products that the industry has to offer. Since this show is in our hometown, we know exactly how huge the Kay Bailey Hutchinson Convention Center is and we know you can't possibly see all of it in three days. In order to streamline your ASIS experience, we have created our "Live From ASIS" page to make sure you don't miss anything on the show floor.

**Subject:** Visitor/Contractor/Vendor Management

**Date:** Sunday, September 17, 2017 at 12:21:10 PM Eastern Daylight Time

**From:** on behalf of Rich Zupan

**To:** pdigiulio@revere.mec.edu

Mr Digiulio,

My name is Rich Zupan.

I am the District Sales Manager with IDenticard Systems for your area and work closely with several schools in MA for Identification and Visitor Management solutions. I am reaching out to find out if you are currently considering new Visitor Management solutions to securely check-in, track and badge visitors to Revere High.

Our Visitor Management solutions include a basic stand-alone system up to more advanced cloud-based and client/server based solutions where you can scan the visitor's driver's license, take a photo, create watch lists for unwanted visitors, run evacuation reports and print self-expiring visitor badges. These systems can also help you meet the new OSHA and other safety recommendations for securely managing visitors and help reduce incidents of workplace violence through deterring potential threats with a thorough visitor check-in and registration process.

If you would like to talk more soon to review your needs and our solutions, you can reach me at 978-790-6054. I appreciate your help to forward this on to the correct contact if you do not handle Visitor Management for your facility.

The following link shows more detail about our Visitor Management solutions:

## Case study: A modern access control solution for a deserving New England institution

For two decades, Boston's Neely House has provided a comforting environment for patients

undergoing cancer treatment at a nearby medical center.

When the non-profit was seeking assistance with a new access control & security system, one of our partners knew that IDenticard was perfect for the job.

*"We design security solutions for the customer. In this case, IDenticard was the solution that gave them the best answer."*

- Geva Barash, Secure Our City

Learn more about the solution we were able to provide for the Neely House, and learn how a similar solution could be used to bring an innovative access control solution to your facility.

### **Comprehensive School Safety Platform - [PikMyKid](#)**

Does your school or district have a **School Safety Platform** to address all safety loopholes at your school?

[PikMyKid](#) has been helping schools create digital audit trails & dismissal management systems with our **Safety School Platform**. Watch this [CBS News](#)

Video to get a better idea.

PikMyKid schools experience:

- **Full Audit Trail:** District and & school portal for total control/view of the process & Digital time-stamped reports
- **Car Queue:** Efficient, orderly, & real-time for all to see; included bus & walker module
- **Parent Emergency Notification:** Alert specific contacts when students are dismissed, delays/cancellation/emergency
- **Panic Button(new):** Alert first responders & district safety staff instantly when seconds matter using a virtual Panic Button.
- **Visitor Management(new):** Seamless visitor management using the same platform
- **Traffic Mitigation:** Only system in the country in partnership with DoT helping with school traffic problems.

## Improving School Safety With School Data

Collect school data using a smart ID card and start improving safety

Schools are perhaps the most data driven sector in the U.S.

Safety begins with smart ID cards that automate attendance at

the building, classroom and bus. Identify and record who wants school access with visitor management. Authorized staff simply tap their ID cards to gain access to secure doors.

(System integrates, pushes and pulls data from your SIS, i.e. PowerSchool)

It all begins with a Smart ID card - the ScholarChip One Card.

## Improving School Safety With School Data

Collect school data using a smart ID card and start improving safety

Schools are perhaps the most data driven sector in the U.S.

Safety begins with smart ID cards that automate attendance at

the building, classroom and bus. Identify and record who wants school access with visitor management. Authorized staff simply tap their ID cards to gain access to secure doors.

(System integrates, pushes and pulls data from your SIS, i.e. PowerSchool)

It all begins with a Smart ID card - the ScholarChip One Card.

**I'm interested in a One Card quote**

## Why Accurate Label Designs?

### Add To Your School Spirit

Our labels are customized with your school name, mascot and the colors of your choice.

### Pay Less

We are the largest manufacturer of customized school labels in the country, so our prices are the most competitive in the

industry. We will match any competitor's price with the same product.

## Have Tons of Options

We offer more label colors, text colors, and color combinations than any other label manufacturer.

### **Comprehensive School Safety Platform - PikMyKid**

Does your school or district have a **School Safety Platform** to address all safety loopholes at your school?

PikMyKid has been helping schools create digital audit trails & dismissal management systems with our **Safety School Platform**. Watch this **CBS News Video** to get a better idea.

#### PikMyKid schools experience:

- **Full Audit Trail:** District and & school portal for total control/view of the process & Digital time-stamped reports
- **Car Queue:** Efficient, orderly, & real-time for all to see; included bus & walker module
- **Parent Emergency Notification:** Alert specific contacts when students are dismissed, delays/cancellation/emergency
- **Panic Button(new):** Alert first responders & district safety staff instantly when seconds matter using a virtual Panic Button.
- **Visitor Management(new):** Seamless visitor management using the same platform
- **Traffic Mitigation:** Only system in the country in partnership with DoT helping with school traffic problems.

### TOP STORY

#### Back to School Security Upgrades

The summer is slowing coming to an end and students will be back in school soon, some even as early next week. With the steady stream of kids on campus, school administrators are working hard to keep everyone safe.

One school in New Jersey has been working hard on constructing new security vestibules which will be completed just in time for the beginning of the 2017-2018 school year. The new vestibules will be located at entrances at their elementary and middle schools, and will require all visitors to enter through a set of double doors and greeted by a staff member before they can enter the rest of the building. A new visitor management system will also be used at the schools this year.

## NEWS

---

### [Ohio School Approves Armed Security Response Teams](#)

Last year, the Mad River Local School District located in Riverside, Ohio, voted to have armed security response teams at their schools. These teams consist of employees who had to pass an interview process and training program in order to be approved as one of the team. For the 2017-2018 school year, 32 employees make up the first armed response team.

“Our armed response team is a blend of different staff members that are full-time,” said Chad Wyen, superintendent of the Mad River Local Schools District. “They have been trained through the FASTER Saves Lives training. It is hands-on and they actually have to qualify just as an Ohio peace officer would.”

### [Campus Security & Life Safety Summit 2017](#)

All of us at Campus Security & Life Safety are thrilled to announce our magazine will be hosting its very first summit this fall. This will be a one-day event where campus and education officials can learn about new solutions and technologies for campus security, emergency response, public and life safety and more. During the summit, attendees will have a chance to hear stories from Texas ISD police chiefs and industry experts, as well as learn vital information about the Clery Act.

---

### [Upcoming Webinar: Top Video Surveillance Challenges: Information Security and Bandwidth Management](#)

Video surveillance systems can pose a unique set of challenges. Information security and bandwidth consumption are among the top issues users face. The popularity of new camera technology and high megapixel resolutions can lead to an increase in storage and bandwidth requirements, as well as, present new security concerns. Specific enhancements to cybersecurity practices can address some of these security threats along with features and solutions that will help you significantly save on bandwidth consumption and increase your video retention.

Salient and Arecont's informational webinar will help you to understand

the top video surveillance challenges and provide information on how to reduce their effect.

Join us for this free, one-hour Webinar on August 30.
