Visitor Management Web Page

View this email in your browser

Handwritten guest lists just don't cut it anymore.

You need to know who wants access to your school building. Identify who, why and when, and confirm if they're permitted to be there.

We've also listed a few creative ways that schools can get the most from their Visitor Management system.

Attendance Exceptions: Use a Visitor Management system to manage student late passes. Automating the procedure helps get students to class quickly and it saves administrative time, too.

Student Pick Up: When an authorized guardian is connected to existing student data, the Visitor Management system will show which person is allowed to pick up and remove a student during the school day (multiple guardians can be specified by day).

Reader Q&A with Gary Sigrist: 5 Layers of School Safety

Reader Q&A with Gary Sigrist: 5 Layers of School Safety

Gary Sigrist, CEO of Safeguard Risk Solutions and a retired school district safety director, provided some insightful answers to questions asked by audience members during his school safety webinar.

Report: Academia Must Approach Sexual Harassment as Cultural Problem

Current approaches to sexual harassment in academic sciences, engineering and medicine have led to significant damage in research integrity and loss of talent, says the report.

Exceptional Detail and Sensitivity for Round-the-Clock Campus Surveillance Applications, Indoors or Out

4K for the Everyday – Campuses can now benefit from better resolution and outstanding image quality. Making sure schools have the tools they need to see in dark and increase detail recognition is no longer a choice between quality and cost.
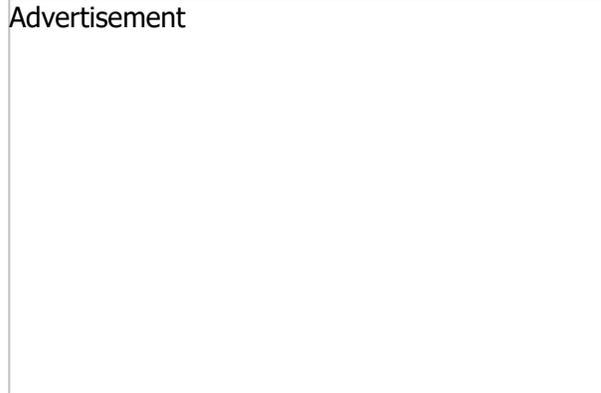

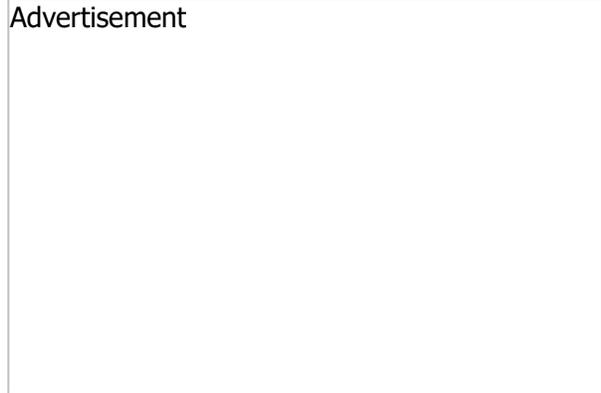

More Districts, Counties Offering School Safety Grants

The second largest county in New Jersey announced Tuesday it will be allocating $20 million of its capital budget to fund school security upgrades.

Safe Havens to Conduct Security Assessment of Broward County Schools

The assessments will be done in two phases, including a physical assessment of each school and an assessment of each school's safety operations.

Subject: [SUSPECTED SPAM] [MKTG] Imagine Working In An Integrated K-12 Ecosystem

Date: Thursday, June 14, 2018 at 4:05:07 PM Eastern Daylight Time

From: ScholarChip on behalf of ScholarChip

To: ccoutts@revere.mec.edu

The K-12 EcoSystem

A school district is a giant ecosystem made up of human and mechanical components.

K-12 Schools: Inside these many ecosystems are disparate services used in a school district: a Student Information System (SIS), a visitor management system, ID cards, transportation, behavior management, a free or reduced lunch program, and an attendance program.

K-12 Ecosystem: What if your district had a system that integrated each essential program or service and linked them together into an overall ecosystem that hums with efficiency? One that makes your job easier, your students more successful, and your teachers more effective?

> Receive the White Paper

The K-12 EcoSystem

A school district is a giant ecosystem made up of human and mechanical components.

K-12 Schools: Inside these many ecosystems are disparate services used in a school district: a Student Information System (SIS), a visitor management system, ID cards, transportation, behavior management, a free or reduced lunch program, and an attendance program.

K-12 Ecosystem: What if your district had a system that integrated each essential program or service and linked them together into an overall ecosystem that hums with efficiency? One that makes your job easier, your students more successful, and your teachers more effective?

Subject: FW: School Visitor Management System

Date: Tuesday, June 12, 2018 at 8:06:51 AM Eastern Daylight Time

From: Jamie Prewitt

To: ccoutts@revere.mec.edu

Hi William,

The Raptor Visitor Management system flags an average of **40** registered sex offenders each and every day trying to gain access to our clients' schools.
Click here to get a quote and learn why more than 20,000 schools across the nation trust Raptor Technologies to help protect their students and staff from the 750,000 registered sex offenders in the U.S.

Thanks,

Jamie

A school district is a giant ecosystem made up of human and mechanical components.

K-12 Schools: Inside these many ecosystems are disparate services used in a school district: a Student Information System (SIS), a visitor management system, ID cards, transportation, behavior management, a free or reduced lunch program, and an attendance program.

Ecosystem: What if your district had a system that integrated each essential program or service and linked them together into an overall ecosystem that hums with efficiency? One that makes your job easier, your students more successful, and your teachers more effective?

EntrySign - Visitor Management System

Email not displaying correctly?
View it in your browser.

Safeguarding with EntrySign™

- Accurate digital record of everyone on site
- Self-service touchscreen system
- Integrates with your SIS system
- Screens Visitors Against Local & National Online Watch Lists

The newest addition to our curated set of edtech tools is designed

for better visitor management at schools. A self-standing kiosk at the entry becomes the on-site data center for visitors, faculty, staff and students.

- RFID cards and fobs
- Prints badges with photo id for visitors
- One-click emergency evacuation report

Real-time access to who is in the building is a game changer for school security. Say goodbye to the days of paper and pencil registration.

Good morning,

My name is Patrick Earls - I am the Business Development Manager at PlastiCard Systems Inc.

PlastiCard provides visitor management solutions to Public Schools districts throughout the US.

In many schools, visitors are still registered using a handwritten paper log. While this is perceived as quick and easy, it provides virtually no security. Automated visitor management systems lend an enhanced security safe guard and meet compliance mandates for the collection and auditing of visitor data.

Our visitor management software allows you to scan a visitor's ID, print a badge and save the records in less than 20 seconds – it also allows you to generate reports and keep a lifetime record of visitors to the school.

Please give us a call or e-mail with any questions you may have regarding your need for a secure visitor management solution.

Thank You,

Patrick Earls
Business Development Manager

From: Justin Traylor

To: jflynn@revere.mec.edu

Attachments: image001.jpg

Jamie,
I am sorry I missed you on the phone today. I was reaching out in regards to my company Raptor Technologies. The Raptor Visitor Management System is the core of an integrated set of front office security solutions designed to protect students, faculty, and staff. We have alerted schools about 50,000+ RSOs and 250,000 custody alerts at schools. Our technology will run an instant check on all visitors that check in with you school. This will eliminate the false sense of security and laborious reporting that pencil and paper provide.
Key Features:
·   Instant Screening
·   Accurate Records
·   Efficient Reporting
·   Volunteer Management
·   Emergency Management
We would like to schedule a call in the next week or so to go over our solutions and show you how we can help keep your children safe. Do you have some time next week?
Have a great day!

NEWS BRIEF

Florida Healthcare System Launches New Security Protocols

By Sydny Shepard

A system of healthcare facilities are focusing on visitor management in a series of new security protocols added this week.

Patients, employees and the public can now feel a little safer in hospitals operated by NCH Healthcare System with the launch of new security measures focused on keeping track of those who enter the facilities.

CyberLock – Access Control at Every Locking Point

CyberLock replaces existing mechanical locks with a powerful access control system, without costly hard-wiring. Over 380 CyberLock cylinders have been designed to replace existing hardware, providing access control at doors, cabinets, safes, and more. Additionally, each time a CyberKey meets a CyberLock, an access record is stored in both the lock and key. **Learn more**.

NEWS

Automated Critical Security

By Mark Robinton

Thousands of people pour into and out of high-rise office buildings each day, and each must be kept safe and secure. Two of the biggest challenges in accomplishing this are guard tour management and ensuring that all fire and safety equipment complies with inspection and maintenance regulations. Trusted identities can be used to automate and improve both processes.

Guard management is actually a three-part problem. Keys must be tracked, guards must visit all their checkpoints as efficiently as possible, and there must be a process for auditing billable contractor hours. An identity solution that combines trusted near field communications (NFC) tags and a cloud-based authentication system can be used to automate each of these processes, integrating key management, security patrol and contractor services into a single solution.

Phillies Plan for Security Perimeter Around Citizens Bank Park

By Sydny Shepard

The Philadelphia Phillies are moving towards a more secure perimeter around Citizen Bank Park. The upgrades to the perimeter of the ballpark include install bollards and removable barricades and are being used to preempt potential terrorist attacks.

A City Council bill authorizing the plan is now under construction and would allow the Phillies to construct the perimeter in time of the start of the 2019 season.

[Upcoming Webinar -- WARNING: 3 Things That Have Changed The Future Of The Security Industry Forever](#)

The security industry is changing rapidly. Mergers and acquisitions are taking over the headlines. IoT is forcing equipment manufacturers to change the way their products are built. Network security is now the cost of entry.

What will the security industry look like in the future? You may, or may not, like the answer.

In this webinar we explore the build-up of industry change over the last twenty years, and discuss the future of our industry. Will the security industry even exist? Join us for this free, one-hour Webinar on May 16.

Subject:	Raptor - Time to Meet?
Date:	Friday, May 4, 2018 at 4:59:45 PM Eastern Daylight Time
From:	Justin Traylor
To:	jflynn@revere.mec.edu
Attachments:	image001.jpg

Jamie,

I am sorry I missed you on the phone today. I was reaching out in regards to my company Raptor Technologies. The Raptor Visitor Management System is the core of an integrated set of front office security solutions designed to protect students, faculty, and staff. We have alerted schools about 50,000+ RSOs and 250,000 custody alerts at schools. Our technology will run an instant check on all visitors that check in with you school. This will eliminate the false sense of security and laborious reporting that pencil and paper provide.
Key Features:
- · Instant Screening
- · Accurate Records
- · Efficient Reporting
- · Volunteer Management
- · Emergency Management

We would like to schedule a call in the next week or so to go over our solutions and show you how we can help keep your children safe. Do you have some time next week?
Have a great day!

How Schools Should Protect Students from Child Custody Disputes

How Schools Should Protect Students from Child Custody Disputes

Having thorough visitor management processes and a staff that is well-versed in understanding child custody paperwork are just two ways to ensure children are safe while in school.
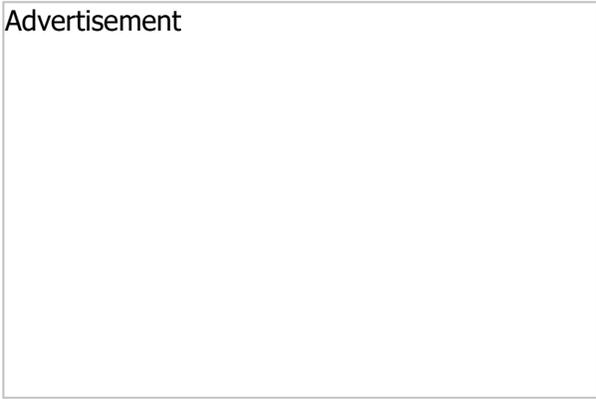

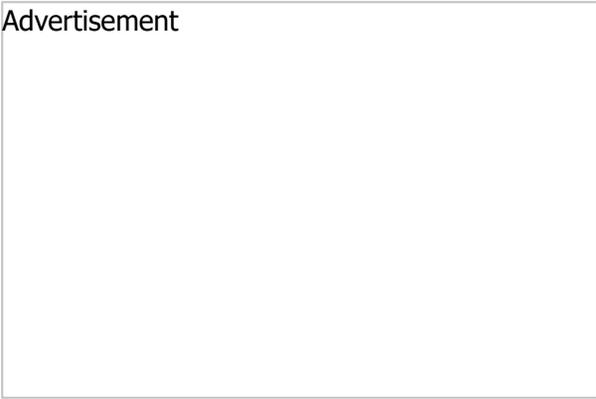

1 Injured, Suspect Denied Bond in Ocala School Shooting

The Top 3 Mistakes Campuses Make When Conducting Tabletop

The suspect, a former student at Forest High School, says killing people was not a part of his plan and that he wants to be "put away" so he can't hurt anyone.

Exercises

These common errors could make your school or university tabletop exercises ineffective.

Syracuse Fraternity Permanently Expelled for Discriminatory Videos

One video posted to a Syracuse fraternity's private Facebook page shows a member reciting a racist oath and another shows a simulated sexual assault.

Binghamton University Stabbing Suspect Pleads Not Guilty in

Senate Passes Anti-Hazing Bill Drafted After Penn State Hazing Death

The Senate unanimously approved the bill that would create prosecution tiers for hazing and establish the crimes of organizational and institutional hazing.

We Want to Hear From You! Take the Campus Safety 2018 Salary

Dorm Killing

Binghamton students have expressed concerns regarding their safety as Sunday's stabbing marks the second student murder in five weeks.

Survey

Campus Safety's latest salary survey covers hospital, school and university security and police officer and chief pay, job satisfaction, staffing levels, weapons, incentives, benefits and more.

Hi William,

More than 20,000 schools across the nation trust Raptor Technologies to help protect their students and staff from the 750,000 registered sex offenders in the U.S. In fact, each day, the Raptor visitor management system flags on average 40 potential sex offenders trying to gain access to our client's schools.

Click here to join us for a live demo of the Raptor Visitor Management System.

Thanks,

Jamie

Hi William,

Over 20,000 schools trust Raptor to help protect their students and staff with solutions for:

- Visitor Management: the most comprehensive and up-to-date screening of all visitors for sex offender status, custody alerts, and more
- Volunteer Management: an end-to-end solution for criminal background screening, application management, tracking, and reporting on volunteer hours and activities
- Emergency Management: a combination of the latest in mobile technology with best practices in emergency management to help you better prepare for, manage, and recover from an incident

Learn more on our website or click here to join us for a live demo of the Raptor Visitor Management System or click here for a live demo of the Raptor Emergency Management System.

         Sherry Ely

Do you also use their Emergency Management System – it looks pretty robust but would be curious to hear from a District that has actually used it.

Sherry

------Original Message------

Laura,

You may consider looking into Raptor Technologies. It is a web based visitor management software with a very nice volunteer module included in the program. The module allows you track hours, run reports, solicit volunteers, and process volunteer applications (including background checks if you prefer).

Troy Schreifels

Laura,

You may consider looking into Raptor Technologies. It is a web based visitor management software with a very nice volunteer module included in the program. The module allows you track hours, run reports, solicit volunteers, and process volunteer applications (including background checks if you prefer).

From: Laura Morine
Subject: Tracking Volunteer Hours

Our district is looking for an easy and economical way to track volunteer hours for our Silver Cord program as well as the adult volunteers that we have in our district. We are hoping that this program would provide an opportunity for the volunteers to have access to the program to review the hours as well.

It would be ideal if this program would allow the volunteers to sign up for the events as well. Does this program exist?

Thank you for your feedback.

Hi Laura,

Beaverton School District uses a System. Here's our webpage for Parents to sign up to volunteer.
It has the program and our processes.

Hi Joanne,

Over 20,000 schools trust Raptor to help protect their students and staff with solutions for:

- Visitor Management: the most comprehensive and up-to-date screening of all visitors for sex offender status, custody alerts, and more
- Volunteer Management: an end-to-end solution for criminal background screening, application management, tracking, and reporting on volunteer hours and activities
- Emergency Management: a combination of the latest in mobile technology with best practices in emergency management to help you better prepare for, manage, and recover from an incident

Learn more on our website or click here to join us for a live demo of the Raptor Visitor Management System or click here for a live demo of the Raptor Emergency Management System.

Regards,

Jamie

TOP NEWS

Florida judge rules against 14 school districts in lawsuit
Orlando Sentinel

Fourteen Florida school districts that had challenged a sweeping education law passed by the Legislature last year lost their case. The challenge argued the new law unconstitutionally forces local school districts to share some local property taxes with charter schools, which are sometimes run by private, for-profit firms.

Kids already in private schools could receive tuition vouchers
The Republic

The Arizona Legislature is debating further loosening a key requirement to participate in the state's school voucher-style program. The legislation would eliminate the public school attendance requirement for students who use certain school tuition organization scholarships. Read more>>

Boston schools face shakeup, departures

Boston Herald

Top Boston Public Schools personnel are headed for the door amid a district reshuffling that has some parents questioning the direction of the system. The high-level exodus comes as the district resets administration posts, creating an office of elementary schools and an office of secondary schools for next year.

Virginia county eyes pilot program for security guards at schools

Inside Nova

Prince William County's supervisors are moving closer to approving a new plan making the county the first locality in Virginia to bring on retired law enforcement officers as armed security guards. Read more>>

A closer look at Alabama's education budget, largest in a decade

AL.com

Alabama's lawmakers allocated $216 million more for spending on education for next year, bringing the total to $6.63 billion. This makes it the largest education budget since 2008, the year considered as the high-water mark for education funding in Alabama. Read more>>

General Assembly overrides governor's veto of school construction overhaul bill

WBAL

Gov. Larry Hogan vetoed a bill that takes school construction, renovation and repair decisions out of the hands of the Board of Public Works and gives it to a panel appointed by the governor and presiding State House officers. The House and Senate voted to override the veto. Read more>>

Schools have an eye on access

Kelley R. Taylor

Today's more sophisticated visitor management systems allow K12 leaders to get a better handle on who's trying to enter (or leave) their buildings—including tardy students. Read more>>

Md. bill would require schools to have a resource officer or police coverage

The Washington Post

The Maryland Senate gave final approval to a bill that would require a resource officer or police coverage for every public school. But lawmakers do not know how much the mandate would cost or how it would be funded. Read more>>

OPINION

Most guns used in school shootings come from home

The Wall Street Journal

A striking detail stands out in nearly three decades of American mass school shootings: The killers mostly use guns owned by a family member, not purchased on their own. Much discussion centers on whether to raise the minimum age for gun purchases. But statistics suggest that a lack of gun safety at home also has played a big role in school shootings. Read more>>

How more meetings might be the secret to fixing high school

NPR

Many students stumble in the transition to high school—more than any other year of school. But meetings are invaluable for student retention if educators talk about data—such as attendance, behavior and grades—the big picture of the students' lives and a personalized plan to help each student. Read more>>

Building skills outside the classroom with new ways of learning

The New York Times

The practicality and applicability of education are still the goal, as innovative school programs and their partners seek to reimagine the educational system in the 21st century. Project-centered approaches to education could eventually make traditional methods as outdated as chalk and blackboards. Read more>>

INDUSTRY NEWS

Payment integration agreement debuted

ScholarChip/SchoolPay

ScholarChip's POS platform will seamlessly integrate with SchoolPay's Payment Gateway to load and reload pre-paid cafeteria balances, update account transactions to SchoolPay's Payment Portal, and set balance alerts for low balances and other issues. Read more>>

TOP NEWS

Florida judge rules against 14 school districts in lawsuit

Orlando Sentinel

Fourteen Florida school districts that had challenged a sweeping education law passed by the Legislature last year lost their case. The challenge argued the new law unconstitutionally forces local school districts to share some local property taxes with charter schools, which are sometimes run by private, for-profit firms.

Kids already in private schools could receive tuition vouchers

The Republic

The Arizona Legislature is debating further loosening a key requirement to participate in the state's school voucher-style program. The legislation would eliminate the public school attendance requirement for students who use certain

school tuition organization scholarships. Read more>>

Boston schools face shakeup, departures
Boston Herald

Top Boston Public Schools personnel are headed for the door amid a district reshuffling that has some parents questioning the direction of the system. The high-level exodus comes as the district resets administration posts, creating an office of elementary schools and an office of secondary schools for next year.

Prince William County's supervisors are moving closer to approving a new plan making the county the first locality in Virginia to bring on retired law enforcement officers as armed security guards. Read more>>

A closer look at Alabama's education budget, largest in a decade
AL.com

Alabama's lawmakers allocated $216 million more for spending on education for next year, bringing the total to $6.63 billion. This makes it the largest education budget since 2008, the year considered as the high-water mark for education funding in Alabama. Read more>>

General Assembly overrides governor's veto of school construction overhaul bill
WBAL

Gov. Larry Hogan vetoed a bill that takes school construction, renovation and repair decisions out of the hands of the Board of Public Works and gives it to a panel appointed by the governor and presiding State House officers. The House and Senate voted to override the veto. Read more>>

Today's more sophisticated visitor management systems allow K12 leaders to get a better handle on who's trying to enter (or leave) their buildings—including tardy students. Read more>>

Md. bill would require schools to have a resource officer or police coverage

The Washington Post

The Maryland Senate gave final approval to a bill that would require a resource officer or police coverage for every public school. But lawmakers do not know how much the mandate would cost or how it would be funded. Read more>>

OPINION

Most guns used in school shootings come from home

The Wall Street Journal

A striking detail stands out in nearly three decades of American mass school shootings: The killers mostly use guns owned by a family member, not purchased on their own. Much discussion centers on whether to raise the minimum age for gun purchases. But statistics suggest that a lack of gun safety at home also has played a big role in school shootings. Read more>>

How more meetings might be the secret to fixing high school

General Assembly overrides governor's veto of school construction overhaul bill

WBAL

Gov. Larry Hogan vetoed a bill that takes school construction, renovation and repair decisions out of the hands of the Board of Public Works and gives it to a panel appointed by the governor and presiding State House officers. The House and Senate voted to override the veto. Read more>>

Md. bill would require schools to have a resource officer or police coverage

The Washington Post

The Maryland Senate gave final approval to a bill that would require a resource officer or police coverage for every public school. But lawmakers do not know how much the mandate would cost or how it would be funded. Read more>>

OPINION

Most guns used in school shootings come from home

The Wall Street Journal

A striking detail stands out in nearly three decades of American mass school shootings: The killers mostly use guns owned by a family member, not purchased on their own. Much discussion centers on whether to raise the minimum age for gun purchases. But statistics suggest that a lack of gun safety at home also has played a big role in school shootings. Read more>>

How more meetings might be the secret to fixing high school

NPR

Many students stumble in the transition to high school—more than any other year of school. But meetings are invaluable for student retention if educators talk about data—such as attendance, behavior and grades—the big picture of the students' lives and a personalized plan to help each student. Read more>>

Building skills outside the classroom with new ways of learning

The New York Times

The practicality and applicability of education are still the goal, as innovative school programs and their partners seek to reimagine the educational system in the 21st century. Project-centered approaches to education could eventually make traditional methods as outdated as chalk and blackboards. Read more>>

TOP NEWS

Florida judge rules against 14 school districts in lawsuit

Orlando Sentinel

Fourteen Florida school districts that had challenged a sweeping education law passed by the Legislature last year lost their case. The challenge argued the new law unconstitutionally forces local school districts to share some local property taxes with charter schools, which are sometimes run by private, for-profit firms.

A closer look at Alabama's education budget, largest in a decade
AL.com

Alabama's lawmakers allocated $216 million more for spending on education for next year, bringing the total to $6.63 billion. This makes it the largest education budget since 2008, the year considered as the high-water mark for education funding in Alabama. Read more>>

General Assembly overrides governor's veto of school construction overhaul bill
WBAL

Gov. Larry Hogan vetoed a bill that takes school construction, renovation and repair decisions out of the hands of the Board of Public Works and gives it to a panel appointed by the governor and presiding State House officers. The House and Senate voted to override the veto. Read more>>

Md. bill would require schools to have a resource officer or police coverage

The Washington Post

The Maryland Senate gave final approval to a bill that would require a resource officer or police coverage for every public school. But lawmakers do not know how much the mandate would cost or how it would be funded. Read more>>

OPINION

Most guns used in school shootings come from home

The Wall Street Journal

A striking detail stands out in nearly three decades of American mass school shootings: The killers mostly use guns owned by a family member, not purchased on their own. Much discussion centers on whether to raise the minimum age for gun purchases. But statistics suggest that a lack of gun safety at home also has played a big role in school shootings. Read more>>

How more meetings might be the secret to fixing high school

NPR

Many students stumble in the transition to high school—more than any other year of school. But meetings are invaluable for student retention if educators talk about data—such as attendance, behavior and grades—the big picture of the students' lives and a personalized plan to help each student. Read more>>

Building skills outside the classroom with new ways of learning

The New York Times

The practicality and applicability of education are still the goal, as innovative school programs and their partners seek to reimagine the educational system in the 21st century. Project-centered approaches to education could eventually make traditional methods as outdated as chalk and blackboards. Read more>>

Florida judge rules against 14 school districts in lawsuit

Orlando Sentinel

Fourteen Florida school districts that had challenged a sweeping education law passed by the Legislature last year lost their case. The challenge argued the new law unconstitutionally forces local school districts to share some local property taxes with charter schools, which are sometimes run by private, for-profit firms.

Florida judge rules against 14 school districts in lawsuit

Orlando Sentinel

Fourteen Florida school districts that had challenged a sweeping education law passed by the Legislature last year lost their case. The challenge argued the new law unconstitutionally forces local school districts to share some local property taxes with charter schools, which are sometimes run by private, for-profit firms.

Md. bill would require schools to have a resource officer or police coverage

The Washington Post

The Maryland Senate gave final approval to a bill that would require a resource officer or police coverage for every public school. But lawmakers do not know how much the mandate would cost or how it would be funded. Read more>>

OPINION

Most guns used in school shootings come from home

The Wall Street Journal

A striking detail stands out in nearly three decades of American mass school shootings: The killers mostly use guns owned by a family member, not purchased on their own. Much discussion centers on whether to raise the minimum age for gun purchases. But statistics suggest that a lack of gun safety at home also has played a big role in school shootings. Read more>>

How more meetings might be the secret to fixing high school

NPR

Many students stumble in the transition to high school—more than any other year of school. But meetings are invaluable for student retention if educators talk about data—such as attendance, behavior and grades—the big picture of the students' lives and a personalized plan to help each student.
