Hello : 7c 7f

We are holding our semi-annual ATAC meeting in the auditorium this Wednesday. One of the presenters is bringing his lap top to show a PowerPoint presentation and do a software demo. Other presenters will have PPT presentations and videos on thumb drives. How simple (or complicated) will it be to show these presentations on the projector screen from the laptop or thumb drive? Besides the power cord, is there any other equipment the presenters should bring with them?

Thank you.
