

Police Department
7 Commercial Street
City of Brockton, Massachusetts 02302-2702

TELEPHONE (508) 941-0200

Mr. Pyle,

Per our telephone conversation I have done all of the research that I can and have found that my statements were correct as to your request. First there is no user guide held on premise at the Brockton Police Department. Several Officers and Detectives were trained by the vendor, on scene at BPD. Those Officers in turn have trained other Officers how to use the equipment. There is likewise no agreement and or paperwork relating to same held on site at the Brockton Police Department. The aforementioned training took place on 06/14/2010 at which time one "I phone" device was given to the Detective Unit with the hope of deploying it for field use. Said device was never used in the field environment but rather was taken back by the vendor for some manner of update and never returned to the BPD for use. During the course of my conversation with the vendor they have related that all pertinent documents and explanations have already been provided to you, at your request, by both the Plymouth County Sheriff's Office and the Sheriffs Assoc. Thank you for your attention in regard to this matter.

 12/15/2010
Sgt. Timothy R. Stanton
Brockton Police Department
