Subject: Middlesex County

Jim;

I am curious if you were able to determine whether Middlesex County will participate in the facial recognition project. If so could we ask them to supply a contact name.

George

Attachments: Minimum Data Fields to be provided with each photo.docx

Thank you all for attending the 5/12 kick off meeting.

I have copied all meeting attendees on this email which is a large distribution group. It would be helpful if each organization would appoint one or two primary contacts for this project. I will continue to copy all participants on all email but I will need to know who to contact with technical and procedural questions.

As you may remember we asked each organization to submit test photos by 5/21 to be evaluated for possible import into the facial recognition system. I will contact you shortly with information on the process for submitting these photos. Please keep me informed about your progress in obtaining the test photos.

Organizations deemed to have usable photos to be converted will need to submit demographic data for each photo submitted during the "real" import process. Attached is a document describing the data to be submitted.

Thank you!
George Connolly

Subject: RE: Ma Facial Recognition Project.

All,

I had an additional thought on an idea I proposed at the meeting regarding the enrollment process which uploads the new photos to the central database each time new pictures are taken. Currently, the quoted time frame for the upload was 1-2 minutes and as expressed by myself and others, the concern was that it would take too long to process multiple inmates. I proposed that the system have the option to do a store and forward where you could process multiple inmates and then upload them at a later time.

After more thought on the matter, I feel that there is no reason why the application could not store all the pictures as a default and then process a batch file overnight on a scheduled basis. Based on the purpose of the enrollment, to share the data with other agencies, this should not cause a problem because in most cases, other agencies would not be needing this data immediately as these new photos would be taken during the booking process at our facilities. With the exception of a few reasons, I cannot see a local police department, as example, trying to recognize an individual in-between the time his photo was taken at our facility and the time it would be uploaded that evening.

Please let me know what you think of this reasoning in regards to a nightly batch file process. As my background is more on the IT side of things and not the law enforcement side, please let me know if there are more instances than I can think of when the data would truly need to be uploaded immediately to be readily available to other agencies.

Thank you,

All,

The batch file approach would not have any impact on the work flow process in Barnstable. Should a P.D. need a response sooner I will assume we could always send one as an individual request for immediate ID.

Attached please find a Word document listing the primary contact names for the MSA Facial Recognition project as I know them at this time.

MSA FACIAL RECOGNITION PROJECT.

Primary contacts for each County.

This is a list of each county and the primary contacts for each.

The Counties in red we have no information.

The people in the Sheriff's letter column were named in the response letter from the Sheriff.

The people in the Other communication column were identified in emails from the County.

The people in the Assumption column are the IT managers for each County. For the organizations in the Assumption column, I will send an email to all the meeting attendees from that County and request that they validate or change the primary contact information.

<u>County</u>	<u>Sheriff's letter</u>	<u>Other communication</u>	<u>Assumption</u>
Barnstable	Sheila Pina		
Berkshire			John Staelens
Bristol			Brent Souza
Dukes			Chris Graham
Essex	Dave Mariscalchi		
Franklin	Ray Nicholas		
Hampden		Tony Bryant	
Hampshire		John Clevenger	
<i>Middlesex</i>			
<i>Nantucket</i>			
Norfolk			Tom Reiman
Plymouth			Tara Cruza
Suffolk			Brian Onessimo
Worcester	Andrew Venuti

Good morning,

George, I updated your list according to the letters we've received here at BI2 – my updates are in blue. I've also attached the updated spreadsheet with their contact information – there were a few errors that are now corrected (thanks George!), so please replace your existing copy with this one.

Thanks,

Bri Blakeman

Subject: HelloJUST Checking In

Hello Sean:

I will presume this e-mail is hitting your computer in Plymouth while you are in or on your way to Anaheim for the NSA Conference.

When you return, I would like to get together for an informal Project review – Project Update-of-Status discussion; nothing to formal; just a dot the “i” and cross the “t” type of details review.

Two questions I do wish to get into circulation and consideration by the B12 Team:

1. Is there a close-off date at which an Office that has yet to confirm an intention to participate in the Program can no longer seek to enroll? I know we have not received any communication from Middlesex regarding participation; and I know Suffolk and Hampden sent staff representatives to the 05/12 Kick-Off Meeting in Auburn; but, I am not sure that either Office has submitted a point-of-contact form.
2. Nantucket: Is there a way we can offer Program participation within the existing MSA-B12 Contract for the Nantucket Sheriff's Office even though Nantucket does not technically incarcerate detainees or sentenced Offenders? [Barnstable and sometimes Dukes handles this function on behalf of Nantucket per an Inter-Agency Services Agreement.] I know Sheriff Bretschnieder does maintain fairly cordial interactive relationships on the Island with Nantucket and MA State Police.

Thank you, as always,

James F. Walsh, Executive Director
Massachusetts Sheriffs' Association

Subject: Facial Recognition

Jim:

Has this project changed? I thought Barnstable and Berkshire were going to get the system? Also do you need the names of the two local PD's now and if so how long before they will see the system installed at their departments?

Thanks

Sheriff Cummings
