Clearview AI is an Internet search engine for faces. It only takes **one** photo of a suspect's face, **one** quick tap or click on your desktop or cell phone, and **one** second of search time. Get results from mug shots, social media, news articles, and millions of other publicly available sources from the open web.

Clearview AI combines the cutting edge of facial recognition technology with our proprietary database of **over 3 billion images** from the open web. Our software can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo.

It only takes **one minute** to install and you can start searching immediately.
