All,

There will be a drone flying around the barracks 11/16 during the dayshift. It has been authorized, so no need to follow up on same.

Respectfully,

Lieutenant Douglas E. Heppleston #2377

Chris,

Lt Doug Heppleston is the barracks commander and CC'd on this email.

Thank you for forwarding the info

Doug,

On Tuesday 11/16 between 0800-1400 an engineering firm working with Westfield/Barnes airport will be using a drone for survey & documentation work. This activity is authorized in case the barracks gets any calls or sightings. Contact info for the airport is in the email chain below if you have any questions.

Respectfully,

Lt Michael A George #2998

Good evening Lt. George,

Would you be able to pass along this information to the Westfield Barracks Commander on the MassPike? Since we will be flying close to your facilities, we want to ensure they are aware of the flights.

Thank you,

Chris

Subject: Westfield-Barnes Regional Airport - Drone Flights - Tuesday, November 16th

Good evening,

We wanted to send out a notice about upcoming BAF drone flights scheduled for Tuesday, November 16th from 0800L until 1400L.

ASG, BAF's on-call airport engineering firm, will be flying two locations (see attached graphics) with a license FAA Part 107 pilot and Jeff Lovejoy will be the Air Boss maintaining contact with the Tower throughout the flights.

The first area of the drone flight will be the Southwest Quadrant of the airport adjacent to Runway 2. We are flying this area collecting ground survey information for the future SW Quadrant Taxiway.

The second area of the drone flight will be off airport on the approach to Runway 15. We are flying this area collecting treetop elevations for our future tree clearing project to regain the original Runway 15 end threshold (eliminate current displaced Runway 15 threshold).

We will issue appropriate NOTAMS this week and will coordinate with all tenants.

If you have any questions or need additional information, please let us know.

Take care,

Chris
