**Dear OEM/CIS committee,**

The Quincy Police Department would also like to officially request a network switch for the Hough's Neck Community Center located close to the Maritime Center for Lt Bob Gillan as discussed at the last CIS subcommittee meeting on June 1 in Charlestown.

Fiber was run into this building after the UASI funded fiber project to connect the Maritime Center with the Quincy Police Department for purposes of connecting the HLS cameras.

Chuck Wade had mentioned to me that he had a switch in stock for this connection.

Respectfully submitted,  
Joe Pepjonovich

**Dear OEM/CIS committee,**

The Quincy Police & Fire would like to formally request the Quincy radio sites be connected to the City fiber network and PSnet with network switches as discussed at the last CIS subcommittee meeting on June 1 in Charlestown.

Interisle & FTG were to provide OEM & CIS committee labor hours and material costs.

Quincy has been looking to complete this project for quite some time and Chuck Wade had mentioned to me that he had the switches in stock.

Respectfully submitted,  
Joe Pepjonovich
