

MOBILE ACCESS COMMAND UNIT (MACU)

When a disaster occurs, is your company, city or town prepared to make crucial decisions, coordinate their response, and track all activity from one central location on-site? LAN-TEL Communications, Inc.'s Mobile Access Command Unit (MACU) is ready for use and rent by municipalities and companies in New England.

LAN-TEL's MACU allows decisions makers to establish a command center at any location and offers:

1. Offers cameras for surveillance
2. Seating for 8-10 staff
3. Assistance in search and rescue operations in an emergency or weather related disaster with all-weather, thermal DJI Drone capability and viewing screens
4. Wireless access for laptops, devices and equipments
5. Outdoor shooter detection for events
6. Event Surveillance, Long-term Surveillance, Large Demonstration assistance
7. Equipped with the latest in public safety and security technologies

*Studies Show the
Presence
of a Drone Reduces
Crime*
