Subject: Re: FatPot

This is all great, Roger. Thank you for your commitment to see this through. Eric (Johnson), please generate a final invoice for us and get it to me before the end of the day Friday. It should be for the balance of the project. Please reach out to me if you have questions on how to format the invoice or what detail should be included on it.

On Wed, Jun 26, 2019 at 2:28 PM Roger Salisbury <rsalisbury@tellus.us> wrote:

<<Boston PD removed>>

Sarah,

Boston PD has come in too late for us to get them integrated before the project close out deadline. It's compounded with the fact that I'm out of the office at a conference most of this week. Our SOW clearly excuses us of the obligation of being held responsible for an agency that is nonresponsive. I can share that verbiage with you if you need access to that.

Having said that, this should allow us to close out the project according to the contract terms in spite of their delays, which is good news from the project management side. In addition to that, please know that we will still commit to working with Boston PD over the next few days/weeks to get them re-integrated in order to make the system whole again. With this approach, we get the best of both worlds (project close out doesn't need to be held up and we get Boston PD re-engaged, albeit slightly after-the-fact).

I'm preparing updates for you (tomorrow or Fri) regarding the other small items that have been outstanding. I think we're in a good position from the project close-out point of view.

Questions?

Thanks,

Roger Salisbury

On 6/26/2019 11:36 AM, John Daley wrote:

Hi Sarah,

I believe that the BRIC and Fatpot have a connection in place. I think Rich Laird and Hutch have worked out the data schema and so the fat pot guys should talk to Rich to add the cad data.

On Wed, Jun 26, 2019 at 11:22 AM Sarah Plowman <sarah.plowman@boston.gov> wrote:

Hello all -

Just closing the loop on this. Can BPD and Tellus please confirm that you have what you need and the work is moving ahead? This must be completed this week. Please advise status ASAP.

Thank you,

Sarah

On Tue, Jun 25, 2019 at 1:14 PM Thomas Hutchings <thomas.hutchings@pd.boston.gov> wrote:

Supt

We last left this was the that they were they were going to access the data through the BRIC for the access since they have access to the data needed and it would not interfere with live CAD dispatch

Thanks Hutch

On Jun 25, 2019, at 12:10 PM, Roger Salisbury <rsalisbury@tellus.us> wrote:

Superintendent Daley,

We are trying to close out the regional project that involves upgrading the 'FATPOT' (re-branded as 'Tellus') CAD sharing platform. Since the Hexagon 9.2 - 9.4 upgrade in November, the Boston PD/FD CAD sharing was knocked off. We stand ready to help restore that connection to the original baseline CAD sharing level which essentially includes call natures and locations - nothing more that it was.

We also know that BPD is in the middle of other major projects and upgrades and would be truly grateful for a small amount of assistance from your people. The benefits of BPD's continuing participation is very important as it is the catalyst for UASI and MBHSR interoperability.

We will do all the heavy lifting but need some assistance from your people in the following tasks:

1. A networking meeting involving your network staff and Interisle to plan a connection between your Hexagon v9.4 CAD and the 'FATPOT' server via a secure PSnet connection. (approx 20 conversation and follow up network provisioning tasks)
2. A remote work session where we install our updated CAD adapter on a host machine owned/managed by Boston PD/FD. (approx 1 hr).

Both Zach Shark and Thomas Hutchings have been involved in some prior discussions and should have a decent level of familiarity with the details. I believe that they should be in a position to help with the process and audit the implementation to ensure that BPD's interests are met.

May we have your permission to proceed?

Thanks,
Roger Salisbury

Superintendent Daley,

OEM has requested our assistance with closing out the FATPOT deliverable for this year. It is in regards to the incident location and time if I recall the discussion.

The point of contact for the FATPOT data would be Roger Salisbury.
Roger is CC'd on this email.

Shawn Romanoski
Director of Telecommunications
Boston Police Dept.
(617) 594-2994
