**Attachments:** **G.L. c. 4 s. 7(26)(n)**

---

Brian,

Here are some spreadsheets that have Lat/Longs for cameras. Some are decimal, some are minutes, seconds. Should give you enough information to run with. If you have any more questions, let me know.

Eric

**Date:** Wednesday, June 17, 2015 1:11:17 PM

---

This is very strong work and I completely agree with all recommendations!

The only ones I would add would be the following:

G.L. c. 4 s. 7(26)(n)

G.L. c. 4 s. 7(26)(n)

Just my .02¢.

Very strong work Siemens has done here!!

Zeb

**Subject:** RE: Hingham work Staion  
**Date:** Tuesday, November 3, 2015 9:43:44 AM

---

Ellen

The work station will consist of 2 monitors, a computer, and other components. I believe its values at around \$5,000, however I could be off slightly. I am working to get a more detailed list of the components. The plan is for the MBTA to pay for this expense, however, we are acquiring it so that it is compatible with the rest of our system. I believe that the MBTA was also going to provide us with the 4 42" TV screens for overhead viewing and cameras. I would be glad to recommend the cameras for the building exterior that are compliant with the rest of our system.

I will see you tomorrow and we can discuss this further.

Respectfully,

Kenneth R. Corson III  
Harbormaster

**Subject:** RE: Hingham work Staion

Ken,

One specific question is regarding the "camera-monitoring computer" which is listed in the attached document for office 116. We'd like to confirm if you are providing this computer, and if so, we'd like to get information on the specifications for it. This computer is not currently part of the equipment which we are providing, so I want to be sure it doesn't fall through the cracks. If you have an overall list of equipment which you are providing for your offices, and specifically a description of the camera-monitoring work station equipment, that would be very helpful.

Thanks,

Ellen

**Subject:** Longfellow Bridge Fiber Testing and Repair  
**Date:** Thursday, November 5, 2015 3:21:15 PM

---

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing. We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected  
Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

**Scenarios:**

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,;

Work is done for the day.

I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:

We will need to take time to determine the exact location of the damage.

Once that is accomplished, we will determine if there is adequate time to complete the repair

If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Regards,

Tony

Tony,

Can we ask you to update this thread tomorrow after the following:

1 – Primary circuit is down and secondary link is active (assuming this will happen ~ 6:00 AM)

2 – Primary circuit has been restored (if repairs are performed ETA ~ 6:00 PM)

We'll perform basic IVR checkouts after each phase.

Thanks.

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing.

We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected

Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

**Scenarios:**

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,;

Work is done for the day.

I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:

We will need to take time to determine the exact location of the damage.

Once that is accomplished, we will determine if there is adequate time to complete the repair

If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Tony

Hi All,

MassDOT Telecom will perform basic IVR self-service applications testing after the cutover to secondary link and when the primary link is backup. We will activate the IVR self-service maintenance message on the IVR if service is identify not available during this window.

MassDOT Telecom contacts are Wai Ho 617.217.8079 and Mike Brewer 617.634.9356

Thanks,

Wai

Absolutely.

The cut will not occur until we complete testing to determine the exact location of the fiber damage, best guess 8:00 AM

I will be on location during this work, anyone in welcome to call me directly with any questions or updates.

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing. We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected  
Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

#### Scenarios:

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure  
Splice 144 strand cable (1-1,...144-144).  
Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:  
We will need to determine "MOP" (Method of Procedure) to perform repair.  
After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,;  
Work is done for the day.  
I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:  
We will need to take time to determine the exact location of the damage.  
Once that is accomplished, we will determine if there is adequate time to complete the repair  
If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Hi All,

Per Tony Wade, the cable was cut at 9:43am. As of 10:03am RMV IVR Self Service is up and able to retrieve data from the backend system. I am able to connect to One Voice servers residing at 185 Kneeland from Quincy HQ.

As noted by Tony on his previous email, the connection to Charlton Call Center is now down from what I can tell. The VOIP phones we deployed there are in out of service state.

Questions, please let me know.

Thanks,

Wai

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected  
Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

#### Scenarios:

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,;  
Work is done for the day.  
I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:  
We will need to take time to determine the exact location of the damage.  
Once that is accomplished, we will determine if there is adequate time to complete the repair  
If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Tony

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing. We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected  
Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

#### **Scenarios:**

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,:

Work is done for the day.

I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:

We will need to take time to determine the exact location of the damage.

Once that is accomplished, we will determine if there is adequate time to complete the repair

If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing. We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected  
Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

#### **Scenarios:**

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,:

Work is done for the day.

I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:

We will need to take time to determine the exact location of the damage.

Once that is accomplished, we will determine if there is adequate time to complete the repair

If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Tony,

Can we ask you to update this thread tomorrow after the following:

- 1 – Primary circuit is down and secondary link is active (assuming this will happen ~ 6:00 AM)
- 2 – Primary circuit has been restored (if repairs are performed ETA ~ 6:00 PM)

We'll perform basic IVR checkouts after each phase.

Thanks.

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing. We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected  
Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

#### **Scenarios:**

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,:

Work is done for the day.

I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:

We will need to take time to determine the exact location of the damage.

Once that is accomplished, we will determine if there is adequate time to complete the repair

If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Regards,

Tony

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing.

We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected

Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

#### **Scenarios:**

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,:

Work is done for the day.

I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:

We will need to take time to determine the exact location of the damage.

Once that is accomplished, we will determine if there is adequate time to complete the repair

If there is not adequate time to complete the repair, work is done for the day and repair will be

scheduled for (11/14)

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing.

We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected

Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

## Scenarios:

If the test clearly confirms the damage is in the Boston abutment;  
We will begin the repair of the cable immediately  
Cut cable at the damaged location  
Pull slack towards bridge to provide adequate slack to support splice  
Migrate slack from MH 1500 to new splice location in abutment  
Install new splice enclosure  
Splice 144 strand cable (1-1,...144-144).  
Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:  
We will need to determine "MOP" (Method of Procedure) to perform repair.  
After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,;  
Work is done for the day.  
I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:  
We will need to take time to determine the exact location of the damage.  
Once that is accomplished, we will determine if there is adequate time to complete the repair  
If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Tony

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing. We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected  
Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

#### Scenarios:

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,;  
Work is done for the day.  
I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:  
We will need to take time to determine the exact location of the damage.  
Once that is accomplished, we will determine if there is adequate time to complete the repair  
If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Tony

Tony,

Can we ask you to update this thread tomorrow after the following:

1 – Primary circuit is down and secondary link is active (assuming this will happen ~ 6:00 AM)

2 – Primary circuit has been restored (if repairs are performed ETA ~ 6:00 PM)

We'll perform basic IVR checkouts after each phase.

Thanks.

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing.

We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected

Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

#### **Scenarios:**

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).

Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:

We will need to determine “MOP” (Method of Procedure) to perform repair.

After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,:

Work is done for the day.

I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:

We will need to take time to determine the exact location of the damage.

Once that is accomplished, we will determine if there is adequate time to complete the repair

If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Tony

**Subject:** RE: Longfellow Bridge Fiber Testing and Repair

Tony,

Can we ask you to update this thread tomorrow after the following:

1 – Primary circuit is down and secondary link is active (assuming this will happen ~ 6:00 AM)

2 – Primary circuit has been restored (if repairs are performed ETA ~ 6:00 PM)

We'll perform basic IVR checkouts after each phase.

Thanks.

**Subject:** Longfellow Bridge Fiber Testing and Repair

All:

MassDOT IT has stated work on the Longfellow cable can only be done on the weekend, including testing. We will perform the testing we were going to do last Tuesday, first thing on Saturday (11/7) at 6:00 AM.

When the cable is repaired, either this weekend or next –(see scenarios below) the follow services will be affected  
Kneeland to Quincy Primary link – Secondary link will not be affected - During testing on 9/26, it was discovered that the RMV self-service IVR line did not work properly when utilizing the secondary path. It is believed this issue has been resolved, but we are not certain because it has not been tested.

Charlton Call Center – Closed Sat/Sun

Haymarket RMV Security - RMV closed Sat/Sun, Security Guard tours will be increased

Haymarket RMV Network Connection - Closed Sat/Sun

**Scenarios:**

If the test clearly confirms the damage is in the Boston abutment;

We will begin the repair of the cable immediately

Cut cable at the damaged location

Pull slack towards bridge to provide adequate slack to support splice

Migrate slack from MH 1500 to new splice location in abutment

Install new splice enclosure

Splice 144 strand cable (1-1,...144-144).  
Estimated 8-12 hours

If testing determines the damage is west of the abutment over the bridge:  
We will need to determine "MOP" (Method of Procedure) to perform repair.  
After assessment, we will determine if we can perform the repair immediately, or reschedule for Saturday (11/14).

If testing determines the damage is on the core 432 strand towards Boston,;  
Work is done for the day.  
I will work with EOPSS to determine process for repair

If the test results do not immediately and conclusively determine the location of the break:  
We will need to take time to determine the exact location of the damage.  
Once that is accomplished, we will determine if there is adequate time to complete the repair  
If there is not adequate time to complete the repair, work is done for the day and repair will be scheduled for (11/14)

Tony

Scott,  
LanTel will need access Wednesday – Friday 11/18-11/20 from 7am to 3:30pm splicing the WAN, VSL and whatever can be with the Radio  
Looks like a flagger and comm man.  
Scott can you confirm with Vien that the pigtails for the WAN are there.  
And if Tom HO is heading VSL is everything there in place for that?

Thank you

Eric Masiello

Eric and Jerome,

Please only terminate 6 fiber strands (blue buffer tube) at Kendall and no changes at Park. Let me know if you have any questions.

P.S. Please provide me with order numbers and purchase order numbers of the missing materials. I have a corning sale contact that maybe able to help us expedite them.

Thanks,

All;

Thank you to those of you who have recently sent us any/all open invoices.

If you have not, and have concerns about open outstanding invoices beyond 45 days past due, please re-send any and all invoices by the end of day Friday 12/11.

Please review invoicing details/directions below to ensure we can promptly process these invoices.

---

**Sent:** Monday, November 30, 2015 7:39 AM  
**Cc:** Thomas Joyce; Katherine Kreuz; Chase Bartrum  
**Subject:** Reminder-TD Garden-Invoices Year End

All;

Good Morning,

PLEASE **DO NOT REPLY TO ALL**

In an attempt to collect all final 2015 invoices, please review your internal Accounts Receivable Statements and forward along electronic copies of any/all open invoices for TD Garden and/or TD Garden Parking Corp.

If you have any questions regarding work that is current on-going or scheduled to be completed in November and December of 2015, please contact me directly.

Please turn in all 2015 invoices by 12/11/15.

- Reminder DNC requires that all labor, materials, and taxes (6.25%) are itemized on each invoice.
- Reminder, if applicable, please reference a Purchase Order.
- Reminder please be sure to use the correct Bill To; address.

**Subject:** Internet Explorer End Of Life Update:  
**To:**

DoIT will be switching over to Internet Explorer 11 as of Monday 3/14/16 and the rest of the departments citywide IE older versions will also be upgraded to Internet Explorer 11 starting on Monday 3/21/16 if they have not already done so.

This is a requirement due to the fact that Microsoft has ended support for users of Internet Explorer 8, 9, and 10, which means that any older versions of IE is no longer receiving any security updates/patches or technical support, thus making anyone who uses the older versions of IE as a security risk.

We have found that IE11 in “enterprise mode” will continue to work for most applications. If you do have any issues you will need to update your software to a

supported version.

DoIT thanks you for your attention to this important update.

## Planning board to consider self-storage facility proposed for Quincy Point

*The planning board Wednesday is expected to vote on a developer's plan to build a self-storage facility next to the*

## *Fore River Bridge rotary in Quincy Point.*

Sep 12, 2016

By [Patrick Ronan](#)

The planning board Wednesday is expected to vote on a developer's plan to build a self-storage facility next to the Fore River Bridge rotary in Quincy Point.

The board will meet at 7 p.m. at Old City Hall.

Jumbo Self Storage LLC, led by Jay and Howard Hirsh, has proposed building a 122,900-square-foot, self-storage facility on a 1.5-acre lot at 671 and 661-665 Washington St. The land is part of a larger boat storage yard just west of the rotary and north of the old shipyard.

Plans for the facility, which would ultimately be managed by a self-storage company, call for 1,062 storage containers, 12 parking spaces, new green space and a loading area.

The developer is seeking three special permits: one because it's a major, non-residential use is being proposed; one for a parking waiver; and one for a sign waiver.

In other business Wednesday, the planning board is expected to discuss, and potentially vote on, Steven Baylis' plan to build eight townhouse condos at R264 West St. in West Quincy.

The third item on the agenda is a plan by Scannell Properties to renovate the Boston Scientific property so one of the warehouses can hold a FedEx ground distribution center. But the proposal, expected to tie into the city's plans to upgrade and extend Commander Shea Boulevard, will be continued to a future meeting date.

A separate plan for the Boston Scientific site – to install a 88-foot-long, 30-foot-tall rooftop sign featuring the biotech company's name – was before

the planning board for consideration, but the sign proposal was withdrawn earlier this summer.

**Date:** Monday, September 26, 2016 3:41:59 PM

---

Sgt,

Please call me Vin, & the 6th works for me. Let me know where & when and I will see you there.

Vector Defense System is building a Shield to Otis Harewood's specs. Otis is going to shoot that Shield up. He also has a Shield that Vector left with him on Saturday. He was going to shoot that Shield up today. I will bring them with me.

**To:** Galonzka, Andrew

**Subject:** Vector Defense System Shield

Good morning Sgt Galonzka,

My name is Vin Stancato, retired Boston Police. I now work for LAN-Tel communication.

We manage all of the city of Boston's Homeland Security cameras.

I just talked to Deputy Reynolds and he asked me to reach out to you, we are marketing a personal defense Shield from a company called Vector Defense Systems.

In all of my years as a Boston officer I have never seen a more appropriate tool for cops.

I will have one of these shields in my possession at 10:00am this morning. And would like to introduce you to the Shield. I am also running a demonstration tomorrow at 9:00 am with Boston SWAT and Otis Hairwood on Warren St. Deputy Reynolds thought you might like to send a couple of your on duty personnel to this event.

The Shield weights 7 pounds and is attached to the forearm by 2 straps and has a handle. It can be mounted on the door to a cruiser in an L bracket to add a measure of ballistic coverage to the officers in the car.

You can reach me at 7814142663 & I am can respond back to your HQ anytime after 10 am to let you handle this Shield for yourself if you would like.

Respectfully,

Vincent P Stancato

Security Specialist

Lan-Tel Communications Inc.

I just talked to Deputy Reynolds and he asked me to reach out to you, we are marketing a personal defense Shield from a company called Vector Defense Systems.

In all of my years as a Boston officer I have never seen a more appropriate tool for cops.

I will have one of these shields in my possession at 10:00am this morning. And would like to introduce you to the Shield. I am also running a demonstration tomorrow at 9:00 am with Boston SWAT and Otis Hairwood on Warren St. Deputy Reynolds thought you might like to send a couple of your on duty personnel to this event.

The Shield weighs 7 pounds and is attached to the forearm by 2 straps and has a handle. It can be mounted on the door to a cruiser in an L bracket to add a measure of ballistic coverage to the officers in the car.

You can reach me at 7814142663 & I am can respond back to your HQ anytime after 10 am to let you handle this Shield for yourself if you would like.

Respectfully,

Vincent P Stancato

Security Specialist

Lan-Tel Communications Inc.

Hi Linda, Louis,

Attached is the upgrade plan that I intend to implement.

If possible I would like to start working on this plan tomorrow 10/19.

Let me know if you are OK with me starting, I can answer any questions you might have as I go. Certainly uninstalling the current 7.6.0 version from zvidsys03 has to happen and should not be contentious!

Ian

Good Afternoon,

In an effort to improve invoice submittal and payment practices, TD Garden asks that your company abides by the following guidelines:

- All invoices for TD Garden Operations charges should have the company listed as Delaware North Companies, Inc – Boston and should be sent via email to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)
- All invoices for Garden Parking Corporation charges should have the company listed as Garden Parking Corporation and should be sent via email to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)
- All invoices must have labor, materials, tax, and other fees itemized. If your company is not responsible for paying MA sales tax, please state this on the invoice.
- Failure to itemize these line items will delay the payment process.
- All invoices should reference a TD Garden Purchase Order Number or a Service Agreement Contract #
- Monthly Past Due Statements and all outstanding invoices should be emailed monthly to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)

Any questions or concerns please reach out.

Thank You

**Courtney O'Brien**

Operations Coordinator

Office: **617.624.1344**

---

Good Afternoon,

With the end of the year approaching, please make sure to submit all 2016 invoices.

Just a reminder, in an effort to improve invoice submittal and payment practices, TD Garden asks that your company abides by the following guidelines:

- All invoices for TD Garden Operations charges should have the company listed as Delaware North Companies, Inc – Boston and should be sent via email to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)
- All invoices for Garden Parking Corporation charges should have the company listed as Garden Parking Corporation and should be sent via email to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)
- All invoices must have labor, materials, tax, and other fees itemized. If your company is not responsible for paying MA sales tax, please state this on the invoice.
- Failure to itemize these line items will delay the payment process.
- All invoices should reference a TD Garden Purchase Order Number or a Service Agreement Contract #
- Monthly Past Due Statements and all outstanding invoices should be emailed monthly to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)

Any questions or concerns please reach out.

Thank You

**Courtney O'Brien**

Operations Coordinator

**Date:** Tuesday, January 10, 2017 12:57:20 PM

---

Good Afternoon,

Our Finance Department closes out 2016 on 1/11/17. Please submit any outstanding invoices. Just a reminder, in an effort to improve invoice submittal and payment practices, TD Garden asks that your company abides by the following guidelines:

- All invoices for TD Garden Operations charges should have the company listed as Delaware North Companies, Inc – Boston and should be sent via email to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)
- All invoices for Garden Parking Corporation charges should have the company listed as Garden Parking Corporation and should be sent via email to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)
- All invoices must have labor, materials, tax, and other fees itemized. If your company is not responsible for paying MA sales tax, please state this on the invoice.
- Failure to itemize these line items will delay the payment process.
- **All invoices should reference a TD Garden Purchase Order Number (formatted as 17-XXXX) or a Service Agreement Contract #**
- Monthly Past Due Statements and all outstanding invoices should be emailed monthly to [OpsFinance@TDGarden.com](mailto:OpsFinance@TDGarden.com)

Any questions or concerns please reach out.

Thank You

Courtney O'Brien

Good morning Thanh, Dave,

Scott Mackay from Lan-Tel is going to test the circuit and router at Ashmont and Community Station tomorrow.

Please note this is pending router delivery tomorrow. Scott will call to provide an ETA

Marci tried to call yesterday to give you a heads-up.

Thank you

Thanh,

Scott is out of the office next week. How about the week after?  
Marci will confirm availability

Thank you

Souad,

We won't be able to provide access this week. We already have other projects scheduled. My earliest appointment available is Monday at 10AM. Let me know and I will sent out a meeting invite.

Thanks,

Good morning Thanh, Dave,

Scott Mackay from Lan-Tel is going to test the circuit and router at Ashmont and Community Station tomorrow.  
Please note this is pending router delivery tomorrow. Scott will call to provide an ETA

Marci tried to call yesterday to give you a heads-up.

Thank you

<http://www.bostonglobe.com/business/2017/02/07/housing-protestors-camp-out-front-city-hall-overnight/R5nLvwoxD7I7sRCwOt0k7N/story.html>

## Housing plan brings growing pains to Jamaica Plain

By Tim Logan and Shelby Grebbin

FEBRUARY 07, 2017

Workers cleaned graffiti outside Boston City Hall Tuesday. Housing activists are protesting new development rules for a section of Jamaica Plain and Roxbury.

Boston officials this week are set to approve new zoning rules for a section of Jamaica Plain from Egleston Square to Forest Hills, bringing new growth and affordable housing to a neighborhood that many residents say needs both.

Developers and their allies worry that aggressive requirements for low-cost units make it too expensive to build, while a group of vocal protesters argue the opposite, that the city hasn't gone far enough on affordable housing. Others in Jamaica Plain, where the planning process has stretched over almost two years and through countless public meetings, just want the whole thing finished.

**Importance:** High

Good morning All,

We would like to test Wednesday 3/8 at 10 am. Please let me know if that works for you.  
I will put it on the calendar to block the time pending your confirmation

Thank you

Good afternoon All,

I just got the good news the circuit landed at MBTA Jackson. Is it possible to test the circuit on Wednesday after we test MBTA Maverick?

Thank you

Good morning Thanh,

I was asked to look into supplying materials for the cabling of the new ATM's at the 7 stations we have been working on with you. Sue provided me with each of the quotes you prepared and I see that the part numbers are there but I will need the manufacturer listed as well in order to pass that list on to my vendor partners for a quote. I'll have to see what they get back to me with as far as pricing to see if I can match the pricing you have listed on your quote. Unless you already have special pricing set up somewhere and just need me to place the order? Let me know what you need me to do and I'll make sure I get it done for you. Also please let me know if you have an idea as to

when you would need the materials delivered by.  
Thanks!  
Marci

Hi Sue

I'll need a better materials list that has manufacturer name listed as well as part number. Then I can get back to you with the prices I can buy these materials for. After I have that info I can ask my vendor partners where they have these materials in stock and how long it would take to ship them out.

Thanks

Marci

Good morning Marci,

Please do NOT purchase yet. This is just to give you an idea what is needed, so you are ready. Laura Murgo provided quotes and lists of materials for each site.

She will also find out when, where and who you need to deliver these items to at each station.

Remember the wiring will be done by MBTA

Let me know if you any questions.

Thank you

**Souad (Sue) Mekhilef**

**Subject:** FW: MBTA Stations \*\*\* Bank of America - Quotes

Good morning Thanh,

I was asked to look into supplying materials for the cabling of the new ATM's at the 7 stations we have been working on with you. Sue provided me with each of the quotes you prepared and I see that the part numbers are there but I will need the manufacturer listed as well in order to pass that list on to my vendor partners for a quote. I'll have to see what they get back to me with as far as pricing to see if I can match the pricing you have listed on your quote. Unless you already have special pricing set up somewhere and just need me to place the order? Let me know what you need me to do and I'll make sure I get it done for you. Also please let me know if you have an idea as to when you would need the materials delivered by.

Thanks!

Marci

Marci,

Most of the material are stocked items, so they should be a quick turn around on them when you issue the PO. The quick we get the material in hand, the faster I can schedule with my construction crew to build out the sites.

Oh, I see.. You have better buying power than the Bank of America!! I will provide pricing to the bank and let them take care of it. When they give the OK for me to place the order I'll let you know when it's available for pickup at Graybar's South Boston counter. I'll make sure they do 7 separate orders for you as you requested. Do you have any idea when you will be needing this material? Ball park idea?

Marci,

We have a buyer logon with Graybar. It maybe priced differently for the MBTA since the pricing is base on the State Blank Pricing. Since this is not a MBTA project, they may not honor the pricing.

Hi Thanh,  
Where did you get your pricing on these parts again? When I try to find pricing on Graybar's website without logging in it doesn't give me any prices. The prices I got direct from Graybar are a little bit higher than what you have and that's with our Bank of America discounted price and before I mark it up the allotted 10%. Let me know so I can go back to Graybar and have them match your prices if they will....  
Thanks  
Marci

Good morning Thanh,

I was asked to look into supplying materials for the cabling of the new ATM's at the 7 stations we have been working on with you. Sue provided me with each of the quotes you prepared and I see that the part numbers are there but I will need the manufacturer listed as well in order to pass that

list on to my vendor partners for a quote. I'll have to see what they get back to me with as far as pricing to see if I can match the pricing you have listed on your quote. Unless you already have special pricing set up somewhere and just need me to place the order? Let me know what you need me to do and I'll make sure I get it done for you. Also please let me know if you have an idea as to when you would need the materials delivered by.

Thanks!

Marci

Hi Sue

I'll need a better materials list that has manufacturer name listed as well as part number. Then I can get back to you with the prices I can buy these materials for. After I have that info I can ask my vendor partners where they have these materials in stock and how long it would take to ship them out.

Thanks

Marci

Good morning Marci,

Please do NOT purchase yet. This is just to give you an idea what is needed, so you are ready. Laura Murgo provided quotes and lists of materials for each site.

She will also find out when, where and who you need to deliver these items to at each station.

Remember the wiring will be done by MBTA

Let me know if you any questions.

Thank you

**Souad (Sue) Mekhilef**

Marci,

Most of the material are stocked items, so they should be a quick turn around on them when you issue the PO. The quick we get the material in hand, the faster I can schedule with my construction crew to build out the sites.

Oh, I see.. You have better buying power than the Bank of America!! I will provide pricing to the bank and let them take care of it. When they give the OK for me to place the order I'll let you know when it's available for pickup at Graybar's South Boston counter. I'll make sure they do 7 separate orders for you as you requested. Do you have any idea when you will be needing this material? Ball park idea?

Marci,

We have a buyer logon with Graybar. It maybe priced differently for the MBTA since the pricing is base on the State Blank Pricing. Since this is not a MBTA project, they may not honor the pricing.

**Subject:** BoNet Maintenance: August 10th from 2:00PM - 10:00PM  
**Date:** Tuesday, August 1, 2017 3:52:54 PM

---

Good afternoon.

Please be aware the BoNet maintenance is scheduled for **Aug. 10th from 2PM - 10PM** to **G.L. c. 4 s. 7(26)(n)**

Network services will be briefly interrupted for each connection as they are moved to ports on the new router.

The list of affected sites/connections and the time period they will be moved are below, along with a copy of the change request that was submitted.

Please let me know if you have questions or concerns you would like to discuss. Please forward the email notification on to anyone I might have missed.

Thanks, and have a great day.  
Ginny

**Date:** Thursday, August 10, 2017 3:43:48 PM

---

First set of connections all moved to the Core BoNet routers successfully.

Next round begins at 6:00 pm, so we will work on getting all new cabling and configurations in place as well as performing cleanup on all other connections that were moved. Network models in monitoring application (Spectrum) needs to be updated and new network discoveries need to be performed.

[New Master List MBTA materials.xlsx](#)

---

Hello Thanh,

Looks like I finally got the green light to order materials for these 7 MBTA sites. Can you take a look at this list and confirm this is correct? It's all 7 sites combined.

Remind me how we were going to stage these materials. Should I place 7 separate orders? Do you want everything held at Graybar in South Boston or do you want materials shipped to each site? Let me know and I'll get this going.

Thanks!

Marci

Hello Thanh,

Looks like I finally got the green light to order materials for these 7 MBTA sites. Can you take a look at this list and confirm this is correct? It's all 7 sites combined.

Remind me how we were going to stage these materials. Should I place 7 separate orders? Do you want everything held at Graybar in South Boston or do you want materials shipped to each site? Let me know and I'll get this going.

Thanks!

Marci

Marci,

Here are the adjusted material lists for the 7 ATM locations. Yes, please place 7 separate orders and have everything held at Graybar in South Boston. Have Graybar contact our MBTA Telcom Foreman, Steve Delforno, at 617-828-6999 when each order is ready for pick up and provide us with the PO numbers and line items information. Let me know if you have any questions and have a great weekend.

Marci,

Here are the adjusted material lists for the 7 ATM locations. Yes, please place 7 separate orders and have everything held at Graybar in South Boston. Have Graybar contact our MBTA Telcom Foreman, Steve Delforno, at 617-828-6999 when each order is ready for pick up and provide us with the PO numbers and line items information. Let me know if you have any questions and have a great weekend.

Thanks,

Hello Thanh,

Looks like I finally got the green light to order materials for these 7 MBTA sites. Can you take a look at this list and confirm this is correct? It's all 7 sites combined.

Remind me how we were going to stage these materials. Should I place 7 separate orders? Do you want everything held at Graybar in South Boston or do you want materials shipped to each site? Let me know and I'll get this going.

Thanks!

Marci

**Subject:** RE: MBTA sites - material lists 10-20-2017

Marci,

Here are the adjusted material lists for the 7 ATM locations. Yes, please place 7 separate orders and

have everything held at Graybar in South Boston. Have Graybar contact our MBTA Telcom Foreman, Steve Delforno, at 617-828-6999 when each order is ready for pick up and provide us with the PO numbers and line items information. Let me know if you have any questions and have a great weekend.

Thanks,

Hi Thanh

Here is the information for the orders I placed with Graybar:

Ashmont	Lantel PO# 17-5901-60-072607	GB will advise Steve Delforno once this order is in complete.
Assembly	Lantel PO# 17-5901-60-072606	At will call 11/2
Community	Lantel PO# 17-5901-60-07259	At will call complete on Friday mid-day with the exception of the LSZH cable shipping from Belden. GB will advise Steve Delforno once this order is in complete.
Haymarket	Lantel PO# 17-5901-60-072587	At will call 11/1 with the exception of the LSZH cable shipping from Belden. GB will advise Steve Delforno once this order is in complete.
Jackson Sq	Lantel PO# 17-5901-60-072591	At will call complete on Friday mid-day with the exception of the LSZH cable shipping from Belden. GB will advise Steve Delforno once this order is in complete.
Kendall Sq	Lantel PO# 17-5901-60-072594	STR7590 is coming from IL (3-4 days); 8220 is coming from VA (2-3 days) and the Belden 2424 is coming from the factory. Everything else will be in 11/1.
Maverick	Lantel PO# 17-5901-60-072602	At will call 11/1 with the exception of the LSZH cable shipping from Belden. GB will advise Steve Delforno once this order is in complete.

Graybar has assured me they will contact Steve when each order is complete and ready for pickup at GB S.Boston counter.

Attached are the orders I placed based on the newest materials lists you sent to me on 10/20.

Thanks!  
Marci

Hi Thanh

Here is the information for the orders I placed with Graybar:

Ashmont	Lantel PO# 17-5901-60-072607	GB will advise Steve Delforno once this order is in complete.
Assembly	Lantel PO# 17-5901-60-072606	At will call 11/2
Community	Lantel PO# 17-5901-60-07259	At will call complete on Friday mid-day with the exception of the LSZH cable shipping from Belden. GB will advise Steve Delforno once this order is in complete.
Haymarket	Lantel PO# 17-5901-60-072587	At will call 11/1 with the exception of the LSZH cable shipping from Belden. GB will advise Steve Delforno once this order is in complete.
Jackson Sq	Lantel PO# 17-5901-60-072591	At will call complete on Friday mid-day with the exception of the LSZH cable shipping from Belden. GB will advise Steve Delforno once this order is in complete.
Kendall Sq	Lantel PO# 17-5901-60-072594	STR7590 is coming from IL (3-4 days); 8220 is coming from VA (2-3 days) and the Belden 2424 is coming from the factory. Everything else will be in 11/1.
Maverick	Lantel PO# 17-5901-60-072602	At will call 11/1 with the exception of the LSZH cable shipping from Belden. GB will advise Steve Delforno once this order is in complete.

Graybar has assured me they will contact Steve when each order is complete and ready for pickup at GB S.Boston counter.

Attached are the orders I placed based on the newest materials lists you sent to me on 10/20.

Thanks!  
Marci

**Subject:** RE: MBTA sites - material lists 10-20-2017

Marci,

Here are the adjusted material lists for the 7 ATM locations. Yes, please place 7 separate orders and have everything held at Graybar in South Boston. Have Graybar contact our MBTA Telcom Foreman, Steve Delforno, at 617-828-6999 when each order is ready for pick up and provide us with the PO numbers and line items information. Let me know if you have any questions and have a great weekend.

Thanks,

Thanh Vien

Hello Thanh,  
Looks like I finally got the green light to order materials for these 7 MBTA sites. Can you take a look

at this list and confirm this is correct? It's all 7 sites combined.

Remind me how we were going to stage these materials. Should I place 7 separate orders? Do you want everything held at Graybar in South Boston or do you want materials shipped to each site? Let me know and I'll get this going.

Thanks!

Marci

Lunch on Qognify is never a bad thing

I couldn't reach John today, I think he said he was traveling.

I will leave the meeting on, and question him about the timing with Rob. John is a pretty good guy, and we were discussing two other instances of working together when he brought up the T meeting. It never dawned on me to ask him about the timing. I assumed it was recent.

I will get back to you.

Hi Brian,  
No, I'm just going on what John Carmicheal gave me for info. He stated he had a conversation with Rob about Qognify, he didn't tell me when he had that talk.

Let's put the lunch off and disregard until later.

I need to have a talk with John about how recent his meeting with Rob was & what his intent is here.  
Especially if he was told there is no interest in the product due to the move towards Genetec.

I apologize Brian. This was meant to be informative, not a sales call.

That's as honest as I can be.

Take care & thank you for the info.

**Subject:** Mike Kane: Boston EOC Genetec 5.5 CU8 load request  
**Date:** Wednesday, December 13, 2017 9:31:16 AM

---

Many thanks!

Vin or Eric-

Can you assist me with this request to get this loaded on our MBTA/Transportation seat at the EOC?

Looks like our Genetec version 5.3 SR2 and we need the upgrade.

Thanks

Hi Brian-

So that workstation does not have Genetec on it. Louis Madeira from BPD is going to load the city approved version of 5.3.

Can you send us the IP Gateway we should use once Louis loads the Genetec software on the workstation?

Thanks,

Mike

Hi Brian-

So that workstation does not have Genetec on it. Louis Madeira from BPD is going to load the city approved version of 5.3.

Can you send us the IP Gateway we should use once Louis loads the Genetec software on the workstation?

Thanks,

Mike

Hi Brian-

So that workstation does not have Genetec on it. Louis Madeira from BPD is going to load the city approved version of 5.3.

Can you send us the IP Gateway we should use once Louis loads the Genetec software on the workstation?

Thanks,

Mike

The workstation was here before me and I was told it was the MBTA workstation so I always figured it was your device that may be an incorrect assumption but I also checked from somewhere here and they believed the same as well. This is for the MBTA seat at the EOC.

Hi Brian-

So that workstation does not have Genetec on it. Louis Madeira from BPD is going to load the city approved version of 5.3.

Can you send us the IP Gateway we should use once Louis loads the Genetec software on the workstation?

Thanks,

Mike

**Subject:** Next Board Meeting - August 1st @ 5:30 pm  
**Date:** Wednesday, July 25, 2018 11:41:33 AM

---

Good afternoon everyone,

Thanks for the feedback about meeting date.....it's scheduled for Wednesday, August 1st at 5:30 pm. As of right now, the only person that I have as not attending is Lisa, she is away on vacation.

If you are unable to attend, please send me a quick email so we don't hold up starting the meeting. I will forward meeting minutes prior to the meeting.

Thank you!  
Katie

Maybe your team may want to take a look and put in a bid. Not sure what the temperature is over here with your team so lets talk.

City of Boston agencies - this is a cross-agency, camera sharing strategy meeting to continue growing the City's initiative to share video and data across agencies, real-time. Your presence, either in person or via conference bridge is needed to represent your projects and be in-the-know of your sister-agency projects. Please plan to attend tomorrow's meeting...same time and same bridge.

Thanks,  
Linda

Good afternoon everyone,

I had some conflicting information from my notes and the Agenda and Leo's meeting minutes about the date for the next board meeting.....The next meeting is Wednesday, November 28th at 5:30 pm. Just wanted to clarify because I had made a reference that we might have changed the meeting date to tonight at the end of the last meeting.

Sorry for any confusion.....let me know if anyone has any questions.

Thank you!  
Katie

Hi Katie,

I thought it seemed soon...

How are the baptism bibs coming along?

We have 6 babies this coming Sunday and 7 so far for November.  
It's the pre-winter rush...

Talk soon,

***Linda M. Muldoon***

**Subject:** Annual Board of Directors Meeting  
**Date:** Monday, November 26, 2018 12:05:58 PM

---

Good morning everyone,

Hope everyone enjoyed the Thanksgiving holiday! Just wanted to remind everyone that the annual board of directors meeting is this Wednesday, November 28th at 5:30 pm. Lisa has already informed me that she is unable to attend....so to all the other members...please let me know if you are unable to attend on Wednesday. This is an annual meeting so we will be renewing terms for all members.

Also keyless code to get into G.L. c. 4 s. 7(26)(n).

See you on Wednesday!  
Thanks,  
Katie

**Date:** Friday, January 4, 2019 11:47:22 AM

---

Good Afternoon John,

I have heard from our team delivering the materials for the electrical runs at the MBTA that the materials will be ready for delivery on Monday except for the cabling that will come on Thursday. Who would be the point of contact for the delivery on Monday and Thursday in Charlestown and there is a preferred time for the delivery?

Thank you,

Laura Murgo  
ATM Business Delivery  
Bank of America

Hi John,

I have just been informed that Graybar the vendor delivering the materials were not able to make a delivery without a direct phone number for a contact person onsite. May we please have your phone number to provide to them please? I apologize for the delay.

Thanks,

Laura Murgo

Hi John,

I just followed up with Graybar and they told me they weren't able to deliver Monday without a phone number for somebody onsite. Can you provide that (yours or somebody else's) and we'll deliver whole tomorrow?

---

To Whom It May Concern,

I am contacting you from the MBTA's Procurement and Logistics Division regarding a Request for Proposal, RFP#38F-19. As your firm is familiar with MBTA work you might be interested in soliciting a bid for the Traction Power Sub Metering Pilot Project. The RFP will be issued on COMMBUYS Monday, March 18, 2019, 5:00 PM. The COMMBUYS ID is BD-19-1206-40000-40000-36461. The Response due date and Public Opening is Wednesday April 17, 2019, 2:00 PM. Please contact [idelalla@mbta.com](mailto:idelalla@mbta.com) if you have any questions.

Thank You,

Nick Cagliuso

Gents,

Good afternoon. I had a request from Romo come across this morning, below is the summary that I can put together from it.

[G.L. c. 4 s. 7\(26\)\(n\)](#)

I have attached the BDs that Shawn provided. Discussion points.

1. Do we have enough time remaining.
2. Is this even possible to connect.

Questions I have Sean / Eric:

Hi everyone,

I'm writing to tell you that Katie's sister, Anne Deveney, passed away last week in NV.

Services will be out there at the beginning of May, and there is a Mass of Remembrance here at St. Francis this Saturday, April 13, at 12NN.

If anyone has a suggestion for what we can do as a board, I'd love to hear it. Please reply all.

I will let Kathy Graham know.

**Subject:** Katie's sister

Hi everyone,

I'm writing to tell you that Katie's sister, Anne Deveney, passed away last week in NV.

Services will be out there at the beginning of May, and there is a Mass of Remembrance here at St. Francis this Saturday, April 13, at 12NN.

If anyone has a suggestion for what we can do as a board, I'd love to hear it. Please reply all.

I will let Kathy Graham know.

Hello - I have received gifts to a nursery for a loved one and its a beautiful way to be able to plant something that lasts in remembrance.  
Maybe something for both Katie's home and her Mom.

Hi all - attached is our Security Camera Strategy Status Report.  
Also attached is a PROPOSED policy on collaboration with new implementation guidelines.  
Our goal is to continue to strengthen our cross-agency collaboration to provide the best public safety support. Please review these guidelines and provide comment. It is the first step in establishing cross-agency policies.

Please plan to attend to provide project updates and your overall input. Thank you.

**Subject:** Request for Proposals (RFP) # 195F-19 RFP Description: Blue Line Security Upgrades

Hello,  
Can you tell me if there are any plans/specifications that show locations and quantities prior to the conference call.  
Thanks,  
Mal
