Dear Law Enforcement Officer and Intelligence Analyst,

ISS World North America
Training Conference and Exhibition
4-6 September 2019
Washington, DC
https://www.issworldtraining.com/ISS_WASH/brochure.pdf

This is an invitation to you and your colleagues to join us at ISS World North America, the premier advanced Social Network Monitoring, Cyber Threat Detection and Dark Net Investigation Training Conference.

ISS World North America features 11 Cyber and Financial Crime Investigation, Dark Web and Social Network Monitoring Training Seminars (40 classroom hours) lead by sworn and retired law enforcement officers and Ph.D Computer Scientists.

In addition we have scheduled 26, one hour Training Sessions on Social Network, Dark Web Monitoring and OSINT Automation by leading ISS Vendors in our Track 2 and 3 (see below) plus 48 additional cyber crime investigation sessions scheduled in our other 8 tracks.

To **Register** you and your colleagues, click on https://www.issworldtraining.com/ISS_WASH/register.htm. Note, our early registration special. Register at full price and invite a guest to join you at no charge (e.g. \$497.50 per attendee)

Advanced Training Seminars

Presented by Current and Former Sworn Law Enforcement Officers and Ph.D Computer Scientists
(40 Classroom Hours of Training)

Wednesday, 4 September 2019

Online Social Media and Internet Investigations
-Charles Cohen, Cohen Training and Consulting, LLC. Charles Cohen also holds the position of Captain, Cyber Crimes Investigative Technologies Section, Indiana State Police, USA

Practitioners Guide to Internet Investigations
-Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Cybercurrency 101: Introduction to What Technical Investigators Need to Know about Bitcoin and Altcoin Transactions, Dark Web Commerce and Blockchain Analysis
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Investigation Techniques for Unmasking TOR Hidden Services and Other Dark Web Operations
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Defeating Network Encryption: What Law Enforcement and The Intelligence Community Needs to Understand
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Understanding Mobile 2G/3G/4G Infrastructure and Lawful Intercept for Technical Investigators
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Track 2: Social Network Monitoring, OSINT and Cyberthreat Detection Training

Wednesday, September 4, 2019

Recognizing Traffic Data and digital profiling via social networks and devices – digital shadows
- Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

-Global terror butterfly effect: Social network and real time threat analysis of lone wolves terrorism
- Cobwebs

Collecting Evidence from Online Social Media: Building a Cyber-OSINT Toolbox
- Charles Cohen, Cohen Training and Consulting, LLC, also holds the position of Captain, Office of Intelligence & Investigative Technologies, Indiana State Police, USA

Open Source Tools, resources and techniques – A walk through my free law enforcement open source tools site
- Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Thursday, September 5, 2019

Combating Threats with Advanced AI-Driven Technologies - Leveraging open source data to anticipate and prevent future attacks
- Voyager Labs

Friday, September 6, 2019

-Jerry Lucas, (Ph.D., Physics) President, TeleStrategies

Understanding 5G Infrastructure, Planned Services, Security Weaknesses and Lawful Intercept Options for Technical Investigators

-Jerry Lucas, (Ph.D., Physics) President, TeleStrategies

Understanding 5G NFV, Network Slicing and Edge Computing for Law Enforcement Investigators

-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Introduction to TSCM and Modern Eavesdropping Threats

-Roger Werries, Training Instructor at Research Electronics International (REI) Training Center for TSCM

Thursday, September 5 2019

Concerns and Considerations in Financial Crime Investigations

-Michael Loughnane, CAMS, CFE, Loughnane Associates, LLC

Top 20 Open Source Tools (OSINT) Used in Cybercrime Investigations

-Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Global terror butterfly effect: Social network and real time threat analysis of lone wolves terrorism

- Cobwebs

Combating Threats with Advanced AI-Driven Technologies - Leveraging open source data to anticipate and prevent future attacks

- Voyager Labs

Top 20 Open Source Tools (OSINT) Used in Cybercrime Investigations

- Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Track 3: Investigating Dark Webs and Associated Cybercurrency Transactions

Wednesday, September 4, 2019

A Real World Look at Investigations in the Dark Web (6 Classroom Hours)

- Todd G. Shipley CFE, CFCE, President and CEO of Vere Software, CoAuthor of, Investigating Internet Crimes: An Introduction to Solving Crimes in Cyberspace and retired investigator, Reno NV, Police Department

Proxies, VPNs, and Dark Web: Identity Concealment and Location Obfuscation

- Charles Cohen, Cohen Training and Consulting, LLC, also holds the position of Captain, Office of Intelligence & Investigative Technologies, Indiana State Police, USA

Tor, onion routers, Deepnet and Darknet: An Investigator's Perspective

- Charles Cohen, Cohen Training and Consulting, LLC, also holds the position of Captain, Office of Intelligence & Investigative Technologies, Indiana State Police, USA

Tor, onion routers, Deepnet and Darknet: A Deep Dive for Criminal Investigators

- Charles Cohen, Cohen Training and Consulting, LLC, also holds the position of Captain, Office of Intelligence & Investigative Technologies, Indiana State Police, USA

Awareness of Emerging Technologies, Masking Tech and Tools, TOR and proxies

- Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Cybercurrency 101: What Technical Investigators Need to Know about Bitcoin and Altcoin Transactions, Dark Web Commerce and Blockchain Analysis

- Matthew Lucas (Ph.D., Computer Science), VP, TeleStrategies

Investigation Techniques for Unmasking TOR Hidden Services and Other Dark Web Operations

- Matthew Lucas (Ph.D., Computer Science), VP, TeleStrategies

Fighting the Opioid Epidemic: Dark Web & Social Networks Investigation

- Cobwebs Technologies

Thursday, September 5, 2019

Fighting the Opioid Epidemic: Dark Web & Social Networks Investigation
- *Cobwebs Technologies*

When law enforcement hack; identifying darknet suspects
- *Searchlight Security*

Friday, September 6, 2019

Indexing the dark net – how do you catalog and search something that is not meant to be easily scrubbed? What's possible?
(3 Classroom Hours)
- *Andrew Lewman, Vice President, DarkOWL and Former Executive Director, The TOR Project*

Profile, target and investigate the Darknet. Reinventing traditional HUMINT in the Digital Era
- *AREA*

To review our complete, ten track ISS World North America **Brochure**, click on https://www.issworldtraining.com/ISS_WASH/brochure.pdf

Conference Tracks, 4-6 September 2019

- Track 1: Lawful Interception and Hi-Tech Criminal Investigation Training
- Track 2: Social Network Monitoring, OSINT and Cyberthreat Detection Training
- Track 3: Investigating Dark Webs and Associated Cybercurrency Transactions
- Track 4: Artificial Intelligence and Big Data Analytics Training
- Track 5: 4G, 5G and Wi-Fi Intercept, Tracking and Forensics Training
- Track 6: Technology Surveillance Countermeasures (TSCM) Training
- Track 7: Body Worn Cameras, Facial Recognition and Live Video Analytics Training
- Track 8: Financial Crime Investigation and Prevention
- Track 9: 5G Applications for Law Enforcement, Public Safety and Homeland Security
- Track 10: Understanding Artificial Intelligence and 5G Technology Synergies with IoT

Advanced Training Seminars

Presented by *Current and Former Sworn Law Enforcement Officers and Ph.D Computer Scientists*
(40 Classroom Hours of Training)

Wednesday, 4 September 2019

Online Social Media and Internet Investigations
-Charles Cohen, Cohen Training and Consulting, LLC. Charles Cohen also holds the position of Captain, Cyber Crimes Investigative Technologies Section, Indiana State Police, USA

Practitioners Guide to Internet Investigations
-Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Cybercurrency 101: Introduction to What Technical Investigators Need to Know about Bitcoin and Altcoin Transactions, Dark Web Commerce and Blockchain Analysis
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Investigation Techniques for Unmasking TOR Hidden Services and Other Dark Web Operations
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Defeating Network Encryption: What Law Enforcement and The Intelligence Community Needs to Understand
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Understanding Mobile 2G/3G/4G Infrastructure and Lawul Intercept for Technical Investigators
-Jerry Lucas, (Ph.D., Physics) President, TeleStrategies

Track 4: Artificial Intelligence and Big Data Analytics Training

Thursday, September 5, 2019

Utilizing AI-Powered Web Intelligence for Deep Web intricate Investigations
- Cobwebs Technologies

Applying AI to Increase Situational Awareness and Improve Crowd Control in Real-Time
- Armored Things

AI based Translation Solutions to Enable Actionable Intelligence
- SDL

Transforming Investigations & Risk Assessment with Artificial Intelligence
- Voyager Labs

Guess who is using THAT App in your country. Metadata as IP Intelligence
- AREA

Applying Cognitive Technology for Anti-Terrorism Predictive Threat Detection
- Gary Olson, CEO, GTop Group

Friday, September 6, 2019

Transforming Investigations & Risk Assessment with Artificial Intelligence
- Voyager Labs

Utilizing AI-Powered Web Intelligence for Deep Web intricate Investigations
- Cobwebs Technologies

AI based Translation Solutions to Enable Actionable Intelligence
- SDL

Track 7: Body Worn Cameras, Facial Recognition and Live Video Analytics Training

Thursday, September 5, 2019

Understanding 5G Infrastructure, Planned Services, Security Weaknesses and Lawful Intercept Options for Technical Investigators
-Jerry Lucas, (Ph.D., Physics) President, TeleStrategies

Understanding 5G NFV, Network Slicing and Edge Computing for Law Enforcement Investigators
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Introduction to TSCM and Modern Eavesdropping Threats
-Roger Werries, Training Instructor at Research Electronics International (REI) Training Center for TSCM

Thursday, September 5 2019

Concerns and Considerations in Financial Crime Investigations
-Michael Loughnane, CAMS, CFE, Loughnane Associates, LLC

Subject **How To Solve More Crimes Instantly With Facial Identification Technology | Free Trial from Clearview**
To <twomeyt@barnstablepolice.com>
Date Mon, 15 Jul 2019 07:01:11 -0500

ID your suspect in seconds

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, and other publicly available sources.

Clearview combines the world's **most accurate** facial identification technology with a proprietary database of **nearly 2 billion** faces from open sources to help you ID a criminal suspect in an instant. It only takes **one** minute to install and you can start searching instantly.

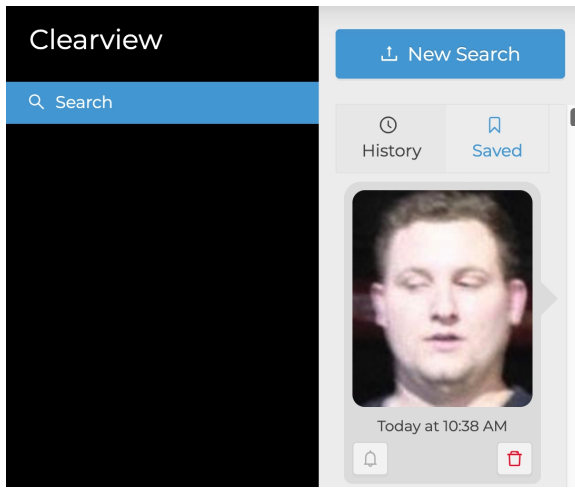

[Try it out for free](#)

How it works

The whole process only takes three simple steps:

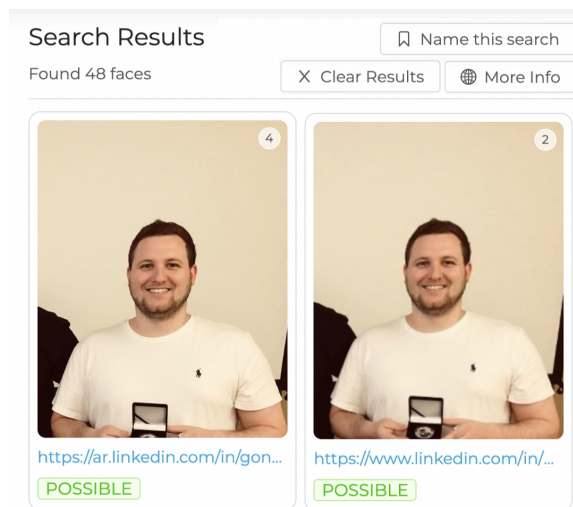

Step 1: Find a photo of a suspect's face.

Step 2: Upload the photo to the Clearview app.

Step 3: Check your search results for a match.

Search on your iPhone or computer

Clearview can find matches even if a suspect wears glasses or headwear, grows a beard, appears in low light or at odd angles, or even if they're in a group photo.

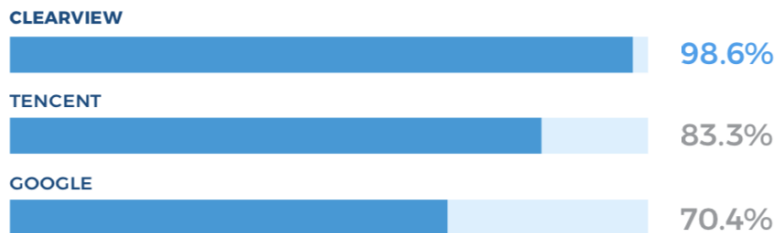

It's no wonder Clearview's accuracy rate is **above 98.6%** — **#1 worldwide**.

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

Accuracy finding a match out of **1 Million faces**:

Over 120 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives. In the last 30 days, our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Identify and arrest a man wanted for attempted homicide
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 14-day trial** with unlimited searches and test this groundbreaking investigative tool for yourself. No strings attached.

From ISS World North America <issworld@telestrategies.net>

Subject **AI Enhanced Facial Recognition, BWC and Real Time Video Analytics Product Training for Law Enforcement and Government Intel**

To <drifmeyere@barnstablepolice.com>

Date Tue, 16 Jul 2019 00:13:01 +0000

Dear Law Enforcement Officer and Government Intelligence Analyst,

ISS World North America

Training Conference and Exhibition

4-6 September 2019

Washington, DC

https://www.issworldtraining.com/ISS_WASH/brochure.pdf

This is an invitation to you and your colleagues to join us at ISS World North America, the premier AI Enhanced Facial Recognition, BWC and Real Time Video Analytics Product Training Conference.

ISS World North America features 11 Cyber and Financial Crime Investigation, Dark Web and Social Network Monitoring Training Seminars (40 classroom hours) lead by sworn and retired law enforcement officers and Ph.D Computer Scientists.

In addition we have scheduled 14, one hour AI Enhanced Facial Recognition, BWC and Real Time Video Analytics Sessions by leading ISS Vendors in our Tracks 4 and 7 (see below) plus 48 additional cyber crime investigation sessions scheduled in our other 7 tracks.

To **Register** you and your colleagues, click on

https://www.issworldtraining.com/ISS_WASH/register.htm. Note, our early registration special. Register at full price and invite a guest to join you at no charge (e.g. \$497.50 per attendee)

Advanced Training Seminars

Presented by Current and Former Sworn Law Enforcement Officers and Ph.D Computer Scientists
(40 Classroom Hours of Training)

Wednesday, 4 September 2019

Online Social Media and Internet Investigations

-Charles Cohen, Cohen Training and Consulting, LLC. Charles Cohen also holds the position of Captain, Cyber Crimes Investigative Technologies Section, Indiana State Police, USA

Practitioners Guide to Internet Investigations

-Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Cybercurrency 101: Introduction to What Technical Investigators Need to Know about Bitcoin and Altcoin Transactions, Dark Web Commerce and Blockchain Analysis

-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Investigation Techniques for Unmasking TOR Hidden Services and Other Dark Web Operations

-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Defeating Network Encryption: What Law Enforcement and The Intelligence Community Needs to Understand

-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Understanding Mobile 2G/3G/4G Infrastructure and Lawful Intercept for Technical Investigators

-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Track 7: Facial Recognition, BWC and Live Video Analytics Training

Thursday, September 5, 2019

Best Practices for Deploying a Facial Recognition Program Panel

- Captain Charles Cohen, Indiana State Police

- Lieutenant Dori Koren, Las Vegas Metropolitan Police

B-en Bawden, Principal, Brooks Bawden, LLC

- Richard Schwartz, CEO, Clearview AI

How Intelligence + Image Recognition Can Save a Risk-Prone World

- Richard Schwartz, CEO, Clearview AI

Subject **AI Enhanced Facial Recognition, BWC and Real Time Video Analytics Product Training for Law Enforcement and Government Intel**
To <alleng@barnstablepolice.com>
Date Sun, 21 Jul 2019 22:45:21 +0000

Dear Law Enforcement Officer and Government Intelligence Analyst,

ISS World North America
Training Conference and Exhibition
4-6 September 2019
Washington, DC
https://www.issworldtraining.com/ISS_WASH/brochure.pdf

This is an invitation to you and your colleagues to join us at ISS World North America, the premier AI Enhanced Facial Recognition, BWC and Real Time Video Analytics Product Training Conference.

ISS World North America features 11 Cyber and Financial Crime Investigation, Dark Web and Social Network Monitoring Training Seminars (40 classroom hours) lead by sworn and retired law enforcement officers and Ph.D Computer Scientists.

In addition we have scheduled 14, one hour AI Enhanced Facial Recognition, BWC and Real Time Video Analytics Sessions by leading ISS Vendors in our Tracks 4 and 7 (see below) plus 48 additional cyber crime investigation sessions scheduled in our other 7 tracks.

To **Register** you and your colleagues, click on https://www.issworldtraining.com/ISS_WASH/register.htm. Note, our early registration special. Register at full price and invite a guest to join you at no charge (e.g. \$497.50 per attendee)

Advanced Training Seminars

Presented by Current and Former Sworn Law Enforcement Officers and Ph.D Computer Scientists
(40 Classroom Hours of Training)

Wednesday, 4 September 2019

Online Social Media and Internet Investigations
-Charles Cohen, Cohen Training and Consulting, LLC. Charles Cohen also holds the position of Captain, Cyber Crimes Investigative Technologies Section, Indiana State Police, USA

Practitioners Guide to Internet Investigations
-Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Cybercurrency 101: Introduction to What Technical Investigators Need to Know about Bitcoin and Altcoin Transactions, Dark Web Commerce and Blockchain Analysis
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Investigation Techniques for Unmasking TOR Hidden Services and Other Dark Web Operations
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Defeating Network Encryption: What Law Enforcement and The Intelligence Community Needs to Understand
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Understanding Mobile 2G/3G/4G Infrastructure and Lawful Intercept for Technical Investigators
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Track 7: Facial Recognition, BWC and Live Video Analytics Training

Thursday, September 5, 2019

Best Practices for Deploying a Facial Recognition Program Panel
- Captain Charles Cohen, Indiana State Police
- Lieutenant Dori Koren, Las Vegas Metropolitan Police
B-en Bawden, Principal, Brooks Bawden, LLC
- Richard Schwartz, CEO, Clearview AI

How Intelligence + Image Recognition Can Save a Risk-Prone World
- Richard Schwartz, CEO, Clearview AI

On-Demand Live Video, or Stored Video?
- Fred Poole, TVU Networks

Face Matching at the Network Edge - Ayonix AICam Platform Technology Briefing
Mike Broggie, CEO, Ayonix Face Technologies
- Douglas Solomon, President, Ayonix Face Technologies

Best Practices for Deploying Police Body Worn Cameras Panel
- Captain Charles Cohen, Indiana State Police
- Commander Ralph Ennis, DC Metropolitan Police Department
- Kevin Davis, CSO, Armored Things and past Baltimore City Police Commissioner 2015-2018

Subject **How To Solve Crimes Instantly with Face Search Technology | Free Trial from Clearview**
To <murphyj@barnstablepolice.com>
Date Thu, 5 Sep 2019 09:01:12 -0500

How it works

Step 1: Find a photo of a suspect's face. } **Step 2: Upload photo to the Clearview app.** } **Step 3: Check search results for a match.**

The illustration is divided into three vertical panels. The first panel shows a full-body photo of a man in a dark t-shirt and khaki pants. The second panel shows the Clearview app interface with a 'New Search' button, 'History', and 'Saved' options, and a close-up of the suspect's face. The third panel shows search results with a 'Found 48 faces' notification and a match labeled 'POSSIBLE' with a LinkedIn link.

Try it out for free

Identify suspects instantly

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, and other publicly available sources.

Clearview combines the world's **most accurate** facial identification technology with a proprietary database of **nearly 2.5 billion** facial images from open sources to help you ID a criminal suspect in an instant. It only takes **one** minute to install and you can start searching immediately.

Try it out for free

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide.**

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

Accuracy finding a match out of **1 Million faces:**

Over 300 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Identify and arrest a man wanted for attempted homicide
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

Subject **How To Solve Crimes Instantly with Face Search Technology | Free Trial from Clearview**
To <perryt@barnstablepolice.com>
Date Thu, 5 Sep 2019 09:19:23 -0500

How it works

Step 1: Find a photo of a suspect's face. } **Step 2: Upload photo to the Clearview app.** } **Step 3: Check search results for a match.**

Try it out for free

Identify suspects instantly

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, and other publicly available sources.

Clearview combines the world's **most accurate** facial identification technology with a proprietary database of **nearly 2.5 billion** facial images from open sources to help you ID a criminal suspect in an instant. It only takes **one** minute to install and you can start searching immediately.

Try it out for free

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide.**

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

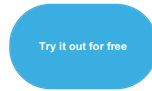

Accuracy finding a match out of **1 Million faces:**

Over 300 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Identify and arrest a man wanted for attempted homicide
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

Subject **Free Trial from Clearview: Instantly identify suspects with just a photo**
To <perryt@barnstablepolice.com>
Date Wed, 11 Sep 2019 09:38:32 -0500

How it works

Step 1: Find a photo of a suspect's face. } **Step 2: Upload photo to the Clearview app.** } **Step 3: Check search results for a match.**

Try it out for free

Identify suspects instantly

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, and other publicly available sources.

Clearview combines the world's **most accurate** facial identification technology with a proprietary database of **nearly 3 billion** facial images from open sources to help you ID a criminal suspect in an instant. It only takes **one** minute to install and you can start searching immediately.

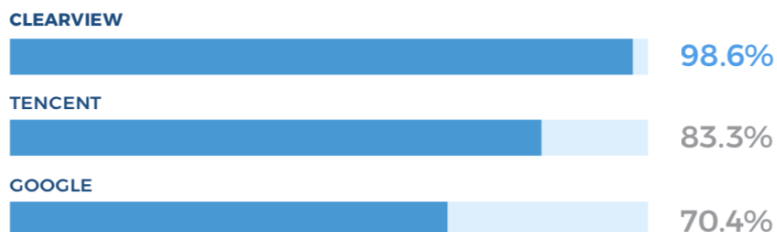

Try it out for free

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide.**

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

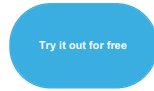

Accuracy finding a match out of **1 Million faces:**

Over 300 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Identify and arrest a man wanted for attempted homicide
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

Subject **How To Solve Crimes Instantly with Face Search Technology | Free Trial from Clearview**
To <twomeyt@barnstablepolice.com>
Date Tue, 1 Oct 2019 06:59:48 -0500

Our office spent 12 man hours over a month's time trying to identify a theft suspect. We ran the picture through Clearview and identified the suspect in seconds.

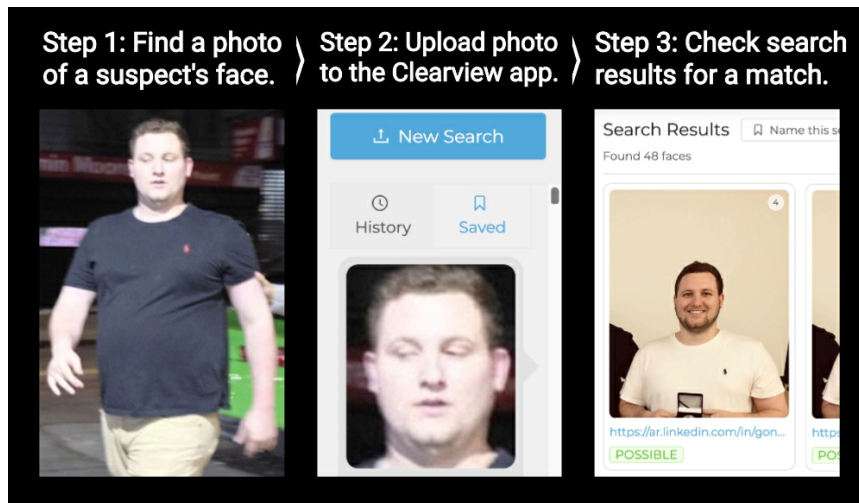

If we had Clearview at the time when the report came in, we would not only have identified the suspect sooner, but also would have **prevented other thefts** that the suspect committed before we arrested him.

— Local Police Officer

"I've got a dozen success stories in three months"

You watch your favorite network crime drama: NCIS, CSI, Blue Bloods, with your friends.

They say: *"Does it work that way in real life?"*

You say: **"No, that's completely unrealistic and stupid."** You wonder who the crazy writers are that invented this TV show.

You use Clearview and immediately realize you **were the crazy one** for believing it couldn't work like that.

I've got **a dozen success stories in three months** of usage and two of the most recent are identifications on homicide suspects ... I'd like to see its usage increase in law enforcement across the nation. *It's unreal how effective it is.*

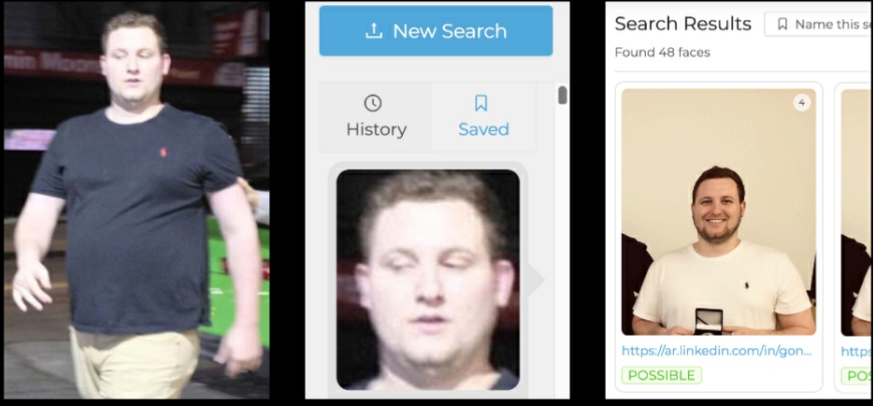

— Local Police Detective, NY

How it works

Step 1: Find a photo of a suspect's face. } **Step 2: Upload photo to the Clearview app.** } **Step 3: Check search results for a match.**

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, news articles, and other publicly available sources.

Clearview combines the world's **most accurate** face search technology with a proprietary database of **nearly 3 billion** facial images from open sources to help you ID a criminal suspect in an instant.

It only takes **one** minute to install and you can start searching immediately. Just click the button below to start your 30-day free trial with unlimited searches - no strings attached.

Try it out for free

Got questions? Shoot us an e-mail at help@clearview.ai

Available on iPhone, Android, and Desktop

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide**.

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

Accuracy finding a match out of **1 Million faces**:

Over 400 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police departments to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Crack a 32-year old unsolved homicide case
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

"I've got a dozen success stories in three months"

You watch your favorite network crime drama: NCIS, CSI, Blue Bloods, with your friends.

They say: *"Does it work that way in real life?"*

You say: **"No, that's completely unrealistic and stupid."** You wonder who the crazy writers are that invented this TV show.

You use Clearview and immediately realize you **were the crazy one** for believing it couldn't work like that.

I've got **a dozen success stories in three months** of usage and two of the most recent are identifications on homicide suspects ... I'd like to see its usage increase in law enforcement across the nation. *It's unreal how effective it is.*

To <yorkj@barnstablepolice.com>
Date Fri, 11 Oct 2019 07:09:31 -0500

"I've got a dozen success stories in three months"

You watch your favorite network crime drama: NCIS, CSI, Blue Bloods, with your friends.

They say: *"Does it work that way in real life?"*

You say: **"No, that's completely unrealistic and stupid."** You wonder who the crazy writers are that invented this TV show.

You use Clearview and immediately realize you **were the crazy one** for believing it couldn't work like that.

I've got **a dozen success stories in three months** of usage and two of the most recent are identifications on homicide suspects ... I'd like to see its usage increase in law enforcement across the nation. *It's unreal how effective it is.*

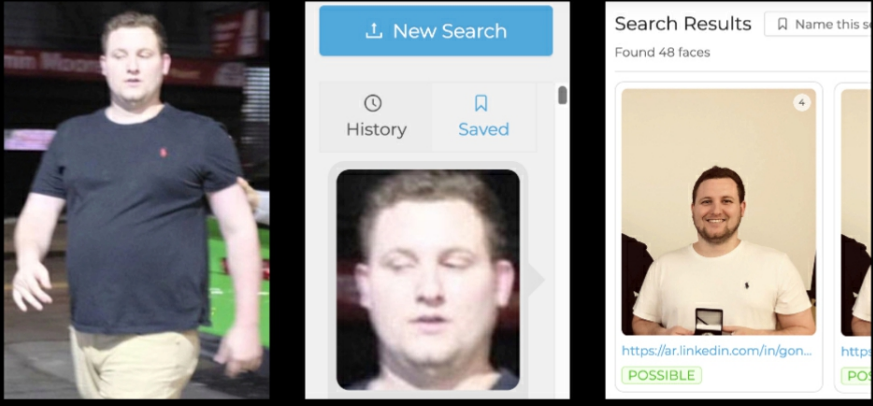

— Local Police Detective, NY

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Sponsored by Veritone

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Public Safety Mobility: The Power of Connectivity in Police Operations

Mobility is what makes it possible for agencies to combine the power of sensors found inside digital devices with the technology available at police headquarters. It's revolutionizing what officers can do as they step away from their squad cars and onto the streets. However, few agencies are taking full advantage of this powerful policing technology.

Subject **Try the best new tool since fingerprints: Free Trial from Clearview**
To <murphyj@barnstablepolice.com>
Date Tue, 19 Nov 2019 07:00:20 -0600

How it works

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, news articles, and other publicly available sources.

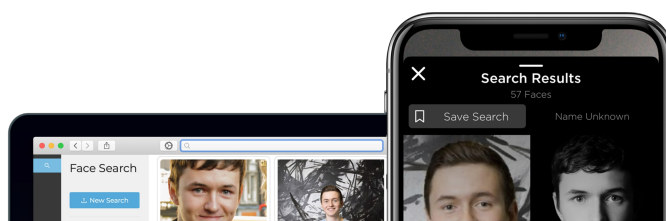

Clearview combines the world's **most accurate** face search technology with the **single largest** proprietary database of facial images from open sources **worldwide** to help you ID a criminal suspect in an instant.

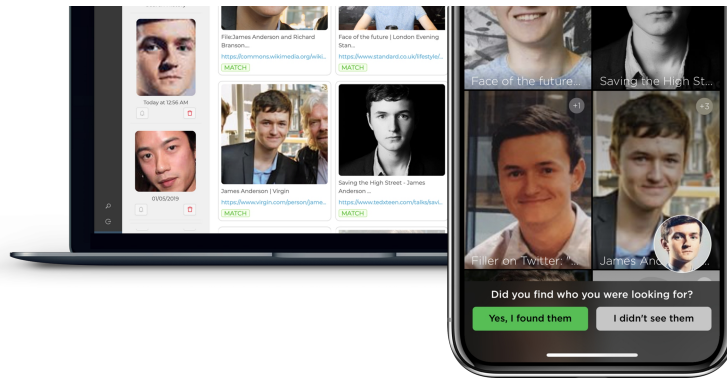

It only takes **one** minute to install and you can start searching immediately. Just click the button below to start your 30-day free trial with unlimited searches - no strings attached.

Try it out for free

Got questions or want to schedule a free webinar? Shoot us an e-mail at help@clearview.ai

Available on iPhone, Android, and Desktop

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide**.

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

Accuracy finding a match out of **1 Million faces**:

Over 500 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police departments to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Crack a 32-year old unsolved homicide case
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

How it works

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, news articles, and other publicly available sources.

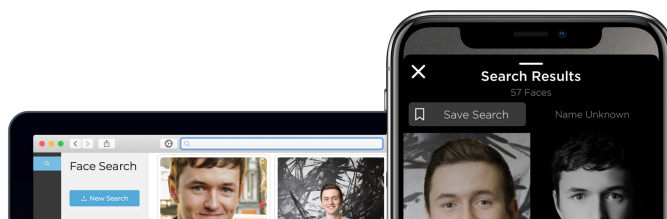

Clearview combines the world's **most accurate** face search technology with the **single largest** proprietary database of facial images from open sources **worldwide** to help you ID a criminal suspect in an instant.

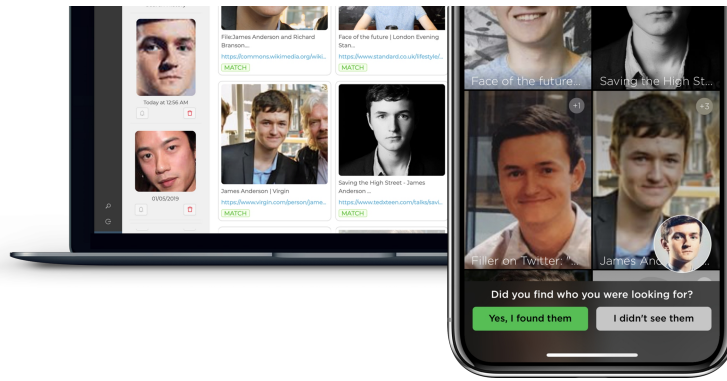

It only takes **one** minute to install and you can start searching immediately. Just click the button below to start your 30-day free trial with unlimited searches - no strings attached.

Try it out for free

Got questions or want to schedule a free webinar? Shoot us an e-mail at help@clearview.ai

Available on iPhone, Android, and Desktop

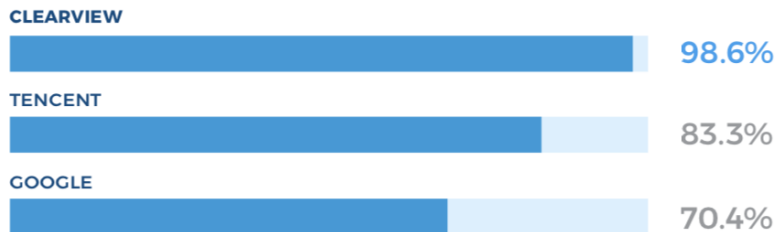

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide**.

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

Accuracy finding a match out of **1 Million faces**:

Over 500 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police departments to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Crack a 32-year old unsolved homicide case
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Public Safety Mobility: The Power of Connectivity in Police Operations

Mobility is what makes it possible for agencies to combine the power of sensors found inside digital devices with the technology available at police headquarters. It's revolutionizing what officers can do as they step away from their squad cars and onto the streets. However, few agencies are taking full advantage of this powerful policing technology.

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Public Safety Mobility: The Power of Connectivity in Police Operations

Mobility is what makes it possible for agencies to combine the power of sensors found inside digital devices with the technology available at police headquarters. It's revolutionizing what officers can do as they step away from their squad cars and onto the streets. However, few agencies are taking full advantage of this powerful policing technology.

Subject **Merry Christmas from Clearview: Get your Free Trial today**
To <murphyj@barnstablepolice.com>
Date Tue, 3 Dec 2019 14:00:29 -0600

How it works

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, news articles, and other publicly available sources.

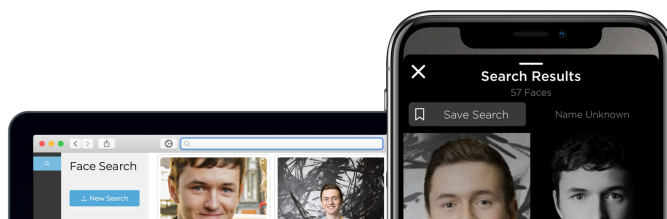

Clearview combines the world's **most accurate** face search technology with the **single largest** proprietary database of facial images from open sources **worldwide** to help you ID a criminal suspect in an instant.

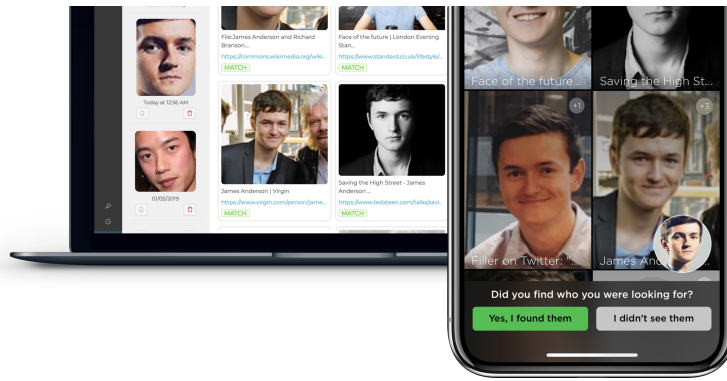

It only takes **one** minute to install and you can start searching immediately. Just click the button below to start your 30-day free trial with unlimited searches - no strings attached.

Try it out for free

Got questions or want to schedule a free webinar? Shoot us an e-mail at help@clearview.ai

Available on iPhone, Android, and Desktop

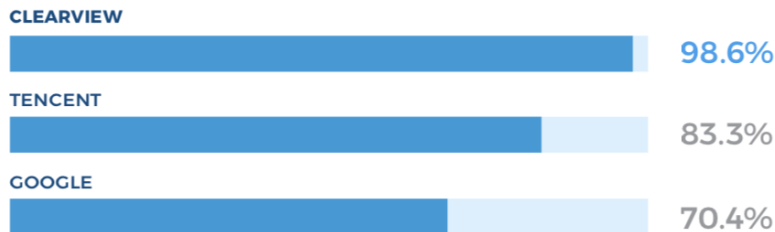

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide**.

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

Accuracy finding a match out of **1 Million faces**:

Over 600 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police departments to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Crack a 32-year old unsolved homicide case
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, news articles, and other publicly available sources.

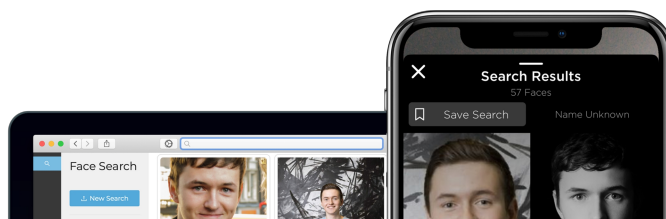

Clearview combines the world's **most accurate** face search technology with the **single largest** proprietary database of facial images from open sources **worldwide** to help you ID a criminal suspect in an instant.

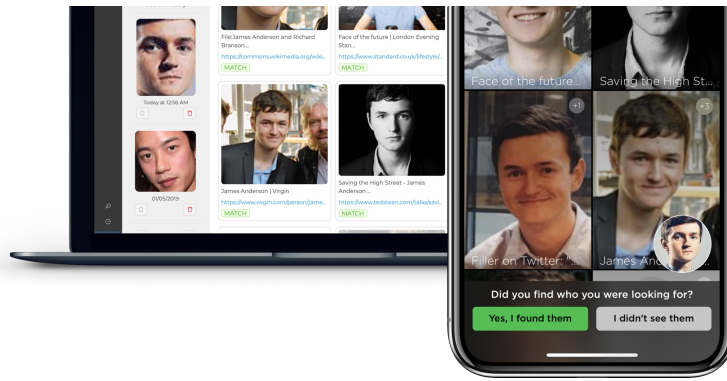

It only takes **one** minute to install and you can start searching immediately. Just click the button below to start your 30-day free trial with unlimited searches - no strings attached.

Try it out for free

Got questions or want to schedule a free webinar? Shoot us an e-mail at help@clearview.ai

Available on iPhone, Android, and Desktop

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is **above 98.6% — #1 worldwide**.

World-Class Accuracy.

Clearview consistently ranks ahead of the world's leading providers in accuracy (Source: Megaface)

Accuracy finding a match out of **1 Million faces**:

Over 600 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police departments to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Crack a 32-year old unsolved homicide case
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 30-day trial** with **unlimited searches** and test this cutting-edge technology for yourself. No strings attached.

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Subject **What's up tech world? | Have you seen this face?**  
To <hurwitzc@barnstablepolice.com>
Date Fri, 24 Jan 2020 16:03:53 +0100

What's up tech world?

Dear Craig,

Ever forget the name of a colleague, but you remember they looked a lot like your mom?

🔊 **Facial recognition** is not just a way to unlock your phone or tag someone on Facebook. US Police Departments [Clearview AI](#) to track down potential criminals. Upload a picture and it will show you potential candidates. The technology uses images scraped from social media sites, which could be violating websites' terms of services. Not to mention, how it might feel to have an officer at your door, just because you look a lot like the Joker. On a completely unrelated note, we made a video showing you [...how to make a machine recognize your face - for free!](#)

🔊 Yeah, you read it right. Soon we will unveil the **PRTG Desktop application for Linux!** We'll be inviting you to test the PRTG Desktop Beta for Linux via this newsletter as soon as it's ready. Once you've tested it, your feedback will go right back into making it even better!

🔊 [Find out how to contribute now](#)

🔊 Did you know that you can use PRTG in the **IoT and IIoT sectors**? And did you know that we are working on a number of solutions to make monitoring "every Thing" less fiction and more reality? Probably not. We want to change that. Ideally face-to-face.

🔊 [Meet us at embedded World](#)

Meet us at embedded and we'll show you the world

👉 ... OK, that might not be quite true, but we do have a lot to share from the "Paessler World".

📍 **Where?** How about the [embedded world 2020](#) in beautiful Nuremberg? Find out how Paessler is preparing *you* for the future. Expect great things!

♥ No ticket? **No problem!** Get your free ticket for the embedded world 2020 with our voucher code: **424582**

🎫 **Tickets**

Also interesting

IT Management made easy with PRTG and bMS

The challenge to keep all systems in the network up and running and reduce failures to a minimum.

[Read the whole story](#)

The end of the anonymous hacker?

Just like righteous programmers, hackers leave their very own mark in the programs and code they write.

[Read the whole story](#)

How can I recommend this newsletter?

All you need to do is forward this mail to your childhood friends, your dog, your colleagues, your mother-in-law, your Starbucks barista, or any other sweethearts of yours. Tell them to subscribe and they'll receive the hottest tech content there is.

SUBSCRIBE ME, SCOTTY!

\$1.4 billion

The amount that Pacific Gas and Electric Co. wants its customers to pay as a reimbursement for the company’s fire-prevention work that it has done in response to extreme weather and large wildfires over the past several years. The amount would translate to increased monthly bills by about \$5 or \$10 for about two years for the average customer. The California Public Utilities Commission still has to respond to the utility’s request.

NEWS IN NUMBERS

\$1.4 billion

The amount that Pacific Gas and Electric Co. wants its customers to pay as a reimbursement for the company’s fire-prevention work that it has done in response to extreme weather and large wildfires over the past several years. The amount would translate to increased monthly bills by about \$5 or \$10 for about two years for the average customer. The California Public Utilities Commission still has to respond to the utility’s request.
