Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Try out Clearview for free here: <https://link.clearview.ai/FreeTrial-cd5>

Everyone expects face search to work when you have to compare two high quality headshots. But did you know Clearview can accurately match photos despite age, glasses, and more?

Check out the example images above!

Example 1: a mug shot that is searched with Clearview returns an accurate match from a group photo with a dozen other people in it. The match is at a side angle with part of the face covered. Clearview still matches it accurately.

Example 2: a photo of a man with glasses on is searched with Clearview. Clearview accurately matches a photo

the man without glasses.

Example 3: a blurry screenshot from 2016 CNN footage of a man with glasses is searched with Clearview. Clearview accurately matches the man to a documentary appearance from 1992 - 24 years before! As a bonus, Clearview again accurately matches the photos despite glasses.

No messing around, glasses removal software, or Photoshop required: Clearview does it all automatically.

It's definitely possible for a photo to be too low quality or obscured for a successful Clearview match. But you'd be surprised how powerful the technology can be. Clearview has accurately matched photos despite:

- Age
- Glasses
- Facial hair and hairstyles
- Headwear
- Side angles
- Low or high angles
- Poor lighting
- Group photos
- Mild facial obstruction
- And more.

We invite you to test the limits for yourself: Clearview is available to all law enforcement officers to trial for free with no strings attached. Try it out for yourself right now on desktop or mobile. Just click the link below:

Link: <https://link.clearview.ai/FreeTrial-cd5>

Over 600 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases, including right here or CrimeDex.

You can also click the Clearview banner at the bottom of this alert to try it out for free.

Making the Case for Adding AI to Police Departments

It's a common meme in modern movies: A video surveillance camera captures an image of a person's face, which is instantaneously identified by artificial intelligence (AI), quickly leading to an arrest—or whatever the next plot twist is. However, in the real world, surveillance systems often fail to live up to this ideal, with police unable to leverage video footage to match identified faces to the names of known offenders. This eBook shows how your department can identify leads faster!

Alert Text

Try out Clearview for free here: <https://link.clearview.ai/FreeTrial-cd4>

Every second counts when the unthinkable happens. You may have seen Clearview's banner here on CrimeDex but have you seen it in action? Here's a short case study of how Clearview identified an unknown suspect in a bomb scare in just seconds:

1. The suspect was captured on camera at the location of the crime. A still with his face visible was distributed for identification.
2. The still was searched with Clearview and it returned a similar result from an online profile in less than 5 seconds. This similar result was then itself searched with Clearview.
3. The similar result returned a match in seconds from a local news site out-of-state reporting on a crime committed by a man with the same name as the similar result.

Both local news and law enforcement eventually identified the suspect as the same man from both Clearview results. That man is now facing three felony charges of placing a false bomb.

And the best part? Clearview is available to all law enforcement officers to trial for free with no strings attached. Try it out for yourself right now on desktop or mobile. Just click the link below:

Link: <https://link.clearview.ai/FreeTrial-cd4>

Over 500 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases, including right here on CrimeDex.

You can also click the Clearview banner at the bottom of this alert to try it out for free.

Subject: How To Solve Crimes Instantly with Face Search

How it works

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, news articles, and other publicly available sources.

Clearview combines the world's **most accurate** face search technology with the **single largest** proprietary database of facial images from open sources **worldwide** to help you ID a criminal suspect in an instant.

It only takes **one** minute to install and you can start searching immediately. Just click the button below to start your 30-day free trial with unlimited searches - no strings attached.

Got questions? Shoot us an e-mail at help@clearview.ai

Available on iPhone, Android, and Desktop

Clearview can find matches even if a suspect grows a beard, wears glasses or headwear, appears in low light or at odd angles, or even if they're in a group photo. It's no wonder Clearview's accuracy rate is above **98.6%** — **#1 worldwide**.

Over 400 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives, ranging from local police departments to state troopers to federal agencies. Our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Crack a 32-year old unsolved homicide case
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

Subject: Solve crimes and save lives instantly with face search - Free Trial from Clearview

"I've got a dozen success stories in three months"

You watch your favorite network crime drama: NCIS, CSI, Blue Bloods, with your friends.

They say: *"Does it work that way in real life?"*

You say: *"No, that's completely unrealistic and stupid."* You wonder who the crazy writers are that invented this TV show.

You use Clearview and immediately realize you were the crazy one for believing it couldn't work like that.

I've got *a dozen success stories in three months* of usage and two of the most recent are identifications on homicide suspects ... I'd like to see its usage increase in law enforcement across the nation. *It's unreal how effective it is.*

— Local Police Detective, NY

Alert Text

Try out Clearview for free here: <https://link.clearview.ai/FreeTrial-cd3>

You may have seen Clearview's banner here on CrimeDex, but do you know how we get you so many life-saving results so fast? The secret sauce is in the data:

Our proprietary database has nearly 3 billion facial images. Each time you upload a photo to Clearview on your phone or computer, our software searches all 3 billion of those images in less than 5 seconds.

Then, it instantly shows you the most accurate matches with names, links, and metadata so you can investigate the new leads. (See attached image #1)

Where do our images come from? 100% of our database is sourced from publicly available, open sources on the web. We're talking literally thousands and thousands of sources, including:

- Mug shot/booking photo databases from all over the country
- Social media sites worldwide
- Work and company profiles
- Local, national, and international news articles
- And much, much more!

It gets better: our database is also rapidly expanding 24/7. Every day, we add 40-50 million new images for you to search with Clearview. If you didn't get a match with Clearview yesterday, you might tomorrow. With our automated alerts system, you won't even need to redo your searches manually.

Nobody else has this unique collection of data (See attached image #2). The only way to search it is with Clearview and we've made it possible to search it instantly an unlimited number of times.

And the best part? Clearview is available to all law enforcement officers to trial for free with no strings attached. Try it out for yourself right now on desktop or mobile. Just click the link below:

Link: <https://link.clearview.ai/FreeTrial-cd3>

Over 400 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases, including right here on CrimeDex.

You can also click the Clearview banner at the bottom of this alert to try it out for free.

Subject: How To Solve More Crimes Instantly With Facial Identification Technology | Free Trial from Clearview

ID your suspect in seconds

Clearview is like Google Search for faces. It only takes **one** photo of a suspect's face, **one** quick tap on your cell phone or computer, and **one** second of search time. Get results from mug shots, social media, and other publicly available sources.

Clearview combines the world's most accurate facial identification technology with a proprietary database of **nearly 2 billion** faces from open sources to help you ID a criminal suspect in an instant. It only takes **one** minute to install and you can start searching instantly.

[Try it out for free](#)

How it works

The whole process only takes three simple steps:

Step 1: Find a photo of a suspect's face.

Step 2: Upload the photo to the Clearview app.

Step 3: Check your search results for a match.

Try it out for free

Search on your iPhone or computer

Clearview can find matches even if a suspect wears glasses or headwear, grows a beard, appears in low light or at odd angles, or even if they're in a group photo.

It's no wonder Clearview's accuracy rate is above 98.6% — #1 worldwide.

Over 120 law enforcement agencies nationwide are already using Clearview to solve crimes and save lives. In the last 30 days, our technology has enabled law enforcement to:

- Break up an online child pornography ring and rescue a 7-year-old girl
- Identify and arrest a man wanted for attempted homicide
- Bust a multi-million dollar credit card fraud operation
- And solve hundreds of other cases across the country

[Sign up now](#) for a **free 14-day trial** with unlimited searches and test this groundbreaking investigative tool for yourself. No strings attached.

Subject: How To Solve More Crimes Instantly With Facial Identification

Alert Number: 328860

Date Published: 07/08/2019

Subject: How To Solve More Crimes Instantly With Facial Identification

Distribution: States: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Federated States of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Marshall Islands, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Palau, Pennsylvania, Puerto Rico, Rhode Island, Samoa, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virgin Islands, Virginia, Washington, West Virginia, Wisconsin, Wyoming, Armed Forces (Africa), Armed Forces (Americas except Canada), Armed Forces (Canada), Armed Forces (Europe), Armed Forces (Middle East), Armed Forces (Pacific), Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Northwest Territories, Nova Scotia, Nunavut, Ontario, Prince Edward Island, Quebec, Saskatchewan, and Yukon

Alert Images:

Step 1: Find a photo of a suspect's face. **Step 2: Upload photo to the Clearview app.** **Step 3: Check search results for a match.**

The diagram illustrates the workflow of the Clearview app. It starts with a photograph of a man in a blue t-shirt. This photo is then uploaded to the app, which shows a 'New Search' button and a 'History' section. The app then displays search results, showing a match with a LinkedIn profile and the word 'POSSIBLE'.

Alert Text

Try out Clearview for free here: <https://link.clearview.ai/CrimeDex>

Getting an ID on an unknown suspect can be tough. But now it can take as little as one second using the cutting edge of facial identification software: Clearview. It's like Google Search for faces. You may have seen Clearview banner here on CrimeDex, but do you know how it works?

The process only takes three simple steps.

Step 1: Find a photo of a suspect's face. (Check out the alert image above.)

A clear, frontal photo works best, but it doesn't have to be perfect. The software can ID a suspect even if he grows a beard, wears glasses, or appears in low light.

Step 2: Upload the photo to the Clearview app.

Using your cell phone or computer, just upload the photo to the app. You can also take a new photo with your camera or screenshot an existing photo. Clearview automatically finds the suspect's face in the photo.

Step 3: Check your search results for a match.

Clearview instantly shows you the best matches from our proprietary database of nearly 2 billion faces collected from carefully vetted, publicly available sources.

Over 120 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases. Clearview has helped solve dozens of cases right here on CrimeDex.

Try it out for yourself right now. Just click the link below to try it out for free with no strings attached.

Link: <https://link.clearview.ai/CrimeDex>

You can also click the Clearview banner at the bottom of this alert to try it out for free.

Subject: Invitation to North America's Most Advanced Training on Social Network Monitoring, Threat Intelligence Gathering and Dark Web Investigations

Dear Law Enforcement Officer and Intelligence Analyst,

ISS World North America
Training Conference and Exhibition
4-6 September 2019
Washington, DC
https://www.issworldtraining.com/ISS_WASH/brochure.pdf

This is an invitation to you and your colleagues to join us at **ISS World North America**, the premier advanced Social Network Monitoring, Cyber Threat Detection and Dark Net Investigation Training Conference.

ISS World North America features 11 Cyber and Financial Crime Investigation, Dark Web and Social Network Monitoring Training Seminars (40 classroom hours) lead by sworn and retired law enforcement officers and Ph.D Computer Scientists.

In addition we have scheduled 26, one hour Training Sessions on Social Network, Dark Web Monitoring and OSINT Automation by leading ISS Vendors in our Track 2 and 3 (see below) plus 48 additional cyber crime investigation sessions scheduled in our other 8 tracks.

To **Register** you and your colleagues, click on https://www.issworldtraining.com/ISS_WASH/register.htm. Note, our early registration special. Register at full price and invite a guest to join you at no charge (e.g. \$497.50 per attendee)

Advanced Training Seminars

Presented by **Current and Former Sworn Law Enforcement Officers and Ph.D Computer Scientists**
(40 Classroom Hours of Training)

Wednesday, 4 September 2019

Online Social Media and Internet Investigations

-**Charles Cohen, Cohen Training and Consulting, LLC. Charles Cohen also holds the position of Captain, Cyber Crimes Investigative Technologies Section, Indiana State Police, USA**

Practitioners Guide to Internet Investigations

-**Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police**

Cybercurrency 101: Introduction to What Technical Investigators Need to Know about Bitcoin and Altcoin Transactions, Dark Web Commerce and Blockchain Analysis

-**Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies**

Investigation Techniques for Unmasking TOR Hidden Services and Other Dark Web Operations

-**Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies**

Defeating Network Encryption: What Law Enforcement and The Intelligence Community Needs to Understand

-**Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies**

Understanding Mobile 2G, 3G/4G Infrastructure and Lawful Intercept for

Track 2: Social Network Monitoring, OSINT and Cyberthreat Detection Training

Wednesday, September 4, 2019

Recognizing Traffic Data and digital profiling via social networks and devices – digital shadows

- **Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police**

-Global terror butterfly effect: Social network and real time threat analysis of lone wolves terrorism
- **Cobwebs**

Collecting Evidence from Online Social Media: Building a Cyber-OSINT Toolbox

- **Charles Cohen, Cohen Training and Consulting, LLC, also holds the position of Captain, Office of Intelligence & Investigative Technologies, Indiana State Police, USA**

Open Source Tools, resources and techniques – A walk through my free law enforcement open source tools site

- **Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police**

Thursday, September 5, 2019

Combating Threats with Advanced AI-Driven Technologies - Leveraging open source data to anticipate and prevent future attacks

- **Voyager Labs**

Friday, September 6, 2019

Global terror butterfly effect: Social network and real time threat analysis of lone wolves terrorism

- **Cobwebs**

Technical Investigators
-Jerry Lucas, (Ph.D., Physics) President, TeleStrategies

Understanding 5G Infrastructure, Planned Services, Security Weaknesses and Lawful Intercept Options for Technical Investigators
-Jerry Lucas, (Ph.D., Physics) President, TeleStrategies

Understanding 5G NFV, Network Slicing and Edge Computing for Law Enforcement Investigators
-Matthew Lucas, (Ph.D., Computer Science) VP, TeleStrategies

Introduction to TSCM and Modern Eavesdropping Threats
-Roger Wierries, Training Instructor at Research Electronics International (REI) Training Center for TSCM

Thursday, September 8, 2019

Concerns and Considerations in Financial Crime Investigations
-Michael Loughmore, CAMS, CFE, Loughmore Associates, LLC

Top 20 Open Source Tools (OSINT) Used In Cybercrime Investigations
Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Combating Threats with Advanced AI-Driven Technologies - Leveraging open source data to anticipate and prevent future attacks
- Voyager Labs

Top 20 Open Source Tools (OSINT) Used in Cybercrime Investigations
- Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police

Track 3: Investigating Dark Webs and Associated Cybercurrency Transactions

Wednesday, September 4, 2019

A Real World Look at Investigations in the Dark web (6 Classroom Hours)
- Todd G. Shipley CFE, CFCE, President and CEO of Vere Software, CoAuthor of, Investigating Internet Crimes: An Introduction to Solving Crimes In Cyberspace and retired investigator, Reno NV, Police Department

Proxies, VPNs, and Dark Web: Identity Concealment and Location Obfuscation
- Charles Cohen, Cohen Training and Consulting, LLC, also holds the position of Captain, Office of Intelligence & Investigative Technologies, Indiana State Police, USA

Tor, onion routers, Deepnet and Darknet: An Investigator's Perspective
- Charles Cohen, Cohen Training and Consulting, LLC, also holds the position of Captain, Office of Intelligence & Investigative Technologies, Indiana State Police, USA

Tor, onion routers, Deepnet and Darknet: A Deep Dive for Criminal Investigators
- Charles Cohen, Cohen Training and Consulting, LLC, also holds the position of Captain, Office of Intelligence &

Investigative Technologies, Indiana State Police, USA

Awareness of Emerging Technologies, Masking Tech and Tools, TOR and proxies
- *Mark Bentley, Communications Data Expert, National Cyber Crime Law Enforcement, UK Police*

Cryptocurrency 101: What Technical Investigators Need to Know about Bitcoin and Altcoin Transactions, Dark Web Commerce and Blockchain Analysis
- *Matthew Lucas (Ph.D, Computer Science), VP, TeleStrategies*

Investigation Techniques for Unmasking TOR Hidden Services and Other Dark Web Operations
- *Matthew Lucas (Ph.D, Computer Science), VP, TeleStrategies*

Fighting the Opioid Epidemic: Dark Web & Social Networks Investigation
- *Cobwebs Technologies*

Thursday, September 5, 2019

Fighting the Opioid Epidemic: Dark Web & Social Networks Investigation
- *Cobwebs Technologies*

When law enforcement hack; identifying darknet suspects
- *Journalist Security*

Friday, September 6, 2019

Indexing the dark net – how do you catalog and search something that is not meant to be easily scrubbed? What's possible?
(3 Classroom Hours)
- *Andrew Lewman, Vice President, DarkOWL and Former Executive Director, The TOR Project*

**Profile, target and investigate the Darknet.
Reinventing traditional HUMINT in the Digital
Era**
- AREA
