Dear Attorney Falcon -

Our office is in receipt of your public records request sent to the Chelsea Police Department regarding Clearview AI, a facial recognition technology start-up.

To the best of our knowledge, CPD has not had any discussions with this company or any other facial recognition companies. They have no way of knowing whether any public safety officials have received marketing or advertising materials or other communications with Clearview AI or any other company.

A search of public safety officials' emails would require a search by our IT Department at a minimum cost of \$50.00 and perhaps more. However, they could limit the search to just the Chief, who would most likely be the one they would contact with their information.

Please advise if you wish to proceed with this request on or before 2/28/2020 otherwise we will consider this public records request closed.

Thank you.
