Emiliano:

The Northbridge Police Department does not use facial recognition software and are not planning on implementing the use of facial recognition software. If you still want the police department to search our records for companies advertising their facial recognition software, we will be happy to do so. However, we would need to recover our costs. I would expect that the time involved in doing so would not exceed 4 hours depending on the time span you would like us to search our records.

Please let me know if you want us to proceed with our record search.

Sincerely,

Chief Warchol

Walter J. Warchol
Chief of Police
Northbridge Police Department
