Yes, that is it. I don't see any emails sent to clearview.ai.

Thank you, Mark.

That is the only Clearview AI email you have? It looks like there was a conversation between Thomas Paolera and the Clearview representative.

Thank you.

Best,

Emiliano

Re: Public records request pertaining to facial recognition

Andover Police Department has not contracted with Clearview AI – and to the best of my knowledge APD has not contracted with any Facial Recognition Software or Service. Investigations may use resources provided through the Commonwealth of Massachusetts Fusion Center, and at least historically the Registry of Motor Vehicles. I am not considering these to be companies that manufacture or sell facial recognition products.

All of these responses are at least related to Clearview AI, but to my knowledge extends to Facial Recognition software/services contracts.

1) One email (attachment 1a.pdf) from a Clearview representative.
One email (a2.pdf) from one company that appears to be from a software

manufacturer Veritone, found due to email including the term “Clearview AI”.

If further information is needed, we would request you to provide a short list of products outside of “Clearview AI” to reduce the scope of this request to manageable levels.

2) In general Email search would retrieve a significant list of emails, including law enforcement newsletters and training opportunities.

If further information is needed, we would request you to provide a short list of products outside of “Clearview AI” to reduce the scope of this request to manageable levels.

3) There are no records responsive to this request.

4) There are no records responsive to this request.

5) We have two Roll Call Training Memos from 2006 (5a.pdf) and 2008 (5b.pdf) referencing the ability to send a photo to the State to be matched vs Registry of Motor Vehicle photos.

6) There are no records responsive to this request.

7) There are no records responsive to this request.
