Hi Emiliano,

Chief LeLacheur was looking to have me forward the initial email regarding Clearview AI. Below is the initial email. the Beverly Police Department has never purchased or requested any information on this product, nor have we seen any demonstration of how it works or what it is. The email was generated by an analyst in another agency who is a member of the international association of crime analysts.

Hope this helps

Mike

Hello,

My agency is curious to know if there are any departments that use CLEARVIEW AI. Some Detectives within our department have seen advertisements for the program and are looking for feedback on it. Also, if your agency is using it, do you have a good contact to learn pricing and further details?

Thanks!

Brad Sturgeon
