Hi Detective David Schneeweis,

Your Clearview account has **unlimited** searches. Don't stop at one search. Or ten. **Try to reach 100 searches with Clearview.**

Investigators who do 100+ Clearview searches have the best chances of **successfully solving crimes** with Clearview in our experience. It's the best way to thoroughly test the technology. You never know when a search will turn up a match. It only takes 1-5 seconds to find out with Clearview, unlike other facial identification systems.

The more searches, the more matches. It's a numbers game. The investigators who search the most are the investigators who solve the most cases. Our proprietary database is the biggest in the world and gets bigger every day. Every new day means more potential results from Clearview.

Feel free to reach out to if you have any questions, comments, or feedback. Just reply to this e-mail or contact [help@clearview.ai](mailto:help@clearview.ai)

Best regards,

—Team Clearview

Every second counts when the unthinkable happens. You may have seen Clearview's banner here on CrimeDex, but have you seen it in action? Here's a short case study of how Clearview identified an unknown suspect in a bomb scare in just seconds:

1. The suspect was captured on camera at the location of the crime. A still with his face visible was distributed for identification.
2. The still was searched with Clearview and it returned a similar result from an online profile in less than 5 seconds. This similar result was then itself searched with Clearview.
3. The similar result returned a match in seconds from a local news site out-of-state reporting on a crime committed by a man with the same name as the similar result.

Both local news and law enforcement eventually identified the suspect as the same man from both Clearview results. That man is now facing three felony charges of placing a false bomb.

And the best part? Clearview is available to all law enforcement officers to trial for free with no strings attached. Try it out for yourself right now on desktop or mobile. Just click the link below:

Over 500 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases, including right here on CrimeDex.

Getting an ID on an unknown suspect can be tough. But now it can take as little as one second using the cutting edge of facial identification software: Clearview. It's like Google Search for faces. You may have seen Clearview banner here on CrimeDex, but do you know how it works?

The process only takes three simple steps.

**Step 1: Find a photo of a suspect's face. (Check out the alert image above.)**

A clear, frontal photo works best, but it doesn't have to be perfect. The software can ID a suspect even if he grows a beard, wears glasses, or appears in low light.

**Step 2: Upload the photo to the Clearview app.**

Using your cell phone or computer, just upload the photo to the app. You can also take a new photo with your camera or screenshot an existing photo. Clearview automatically finds the suspect's face in the photo.

**Step 3: Check your search results for a match.**

Clearview instantly shows you the best matches from our proprietary database of nearly 2 billion faces collected from carefully vetted, publicly available sources.

Over 120 law enforcement agencies nationwide have used Clearview to break up online child exploitation rings, bust multi-million dollar credit card fraud operations, and solve hundreds of other cases. Clearview has helped solve dozens of cases right here on CrimeDex.

Try it out for yourself right now. Just click the link below to try it out for free with no strings attached.
