Max

Is the LPR system set for the change in time for this weekend. If your not sure were do I go to check.

FYI. The system in the month of February has solved four incidents/cases. (2) hit and run accidents, both vehicles and operators identified. A large counterfeit money investigation, and another suspect identified. Just purchased two more cameras for our next stage involving attachment to utility poles utilizing Comcast drops.

Thanks
Vic

Hi Victor,

Happy to hear that the system is helping!

I can do it for you later or you can go to:

Web client
Physical view

You'll see the NVR listed (DS-7716NI-I8/16P) and on the right there is a "gear" icon. Click it.
A window will pop up - it's the NVR configuration page
Under GENERAL there is the time setup

I have a training for a distributor this morning, if I'll finish in time i'll stop there later (between 2pm and 3 pm) if this is ok for you.

We also have to upgrade Hikcentral.

Thank you

ok, I looked at that information and has correct time EST and allows a box to check to sync with computer. Not sure if we need to check the sync box. I will just watch and look at the system first thing Sunday morning. I will be around this afternoon if you stop in.

Vic

Good.
You can sync with the PC time when needed.

FYI - still stuck with the customer so today i can't make it. I 'll be there on Monday as planned.
