Dear Fusion Center,

I have attached a color photograph and the [REDACTED] for facial recognition. I am conducting an investigation into whether or not he is an imposter with a stolen SSN.

Thank you for your help.

Good Evening

I was hoping you could run these two photos through your facial Recognition program. I have sent similar ones down before but these are a bit more cleaned up so i was hoping they would get a hit.

Thank you!

Good Morning, Sir -

A query of [REDACTED] does come back associated to a [REDACTED] - although the address on his Mass ID (Revoked) is in [REDACTED]

Facial Recognition on photos from [REDACTED] are not returning any close matches to any Massachusetts Licenses or IDs...same thing in Coplink FaceMatch...

I was only able to find one report referencing a [REDACTED], but he's listed as a [REDACTED] and there's no DOB listed. The subject in the [REDACTED] would have been [REDACTED]..Not sure it's even the same subject...

Do we have any other information on [REDACTED] Possible addresses/phone numbers or anything?

Respectfully,

Thank you for the additional information. I ran the name through the RMV facial recognition system and still yielded no results. This system is only searching MA license and id photographs. I've attempted to run a facematch through Coplink to search booking photographs but the system appears to be down.

Good Morning, Detective -

Unfortunately, Facial Recognition on the attached photograph returns no close matches to any Massachusetts Licenses or IDs.

Do you have any additional information about him, by chance (first name, possible vehicle, etc)? And is that photo from [REDACTED] - or is that a photo you took of the suspect during your interaction with him? [REDACTED]...Is it possible he may be from out-of-state and not *have* a Massachusetts License or ID?

I had similarly poor luck in Coplink FaceMatch...
