I just checked back with EOTSS. The searches are not case sensitive, their system only looks for the letters/terms within the quotation marks, not for uppercase or lowercase. Would you prefer to try utilizing a different search term?

Hi Jason,

Than you for the email. As to your questions:

Yes, we want the date range for communications requested in Part II, Numbers 3 and 4 to be Feb. 16, 2017 – present.

As to the second points, it is easier to put it this way: The MSP address is a search term. Hence, we want returns for a search for emails including

(1) the FRT + ___; and

(2) the MSP term.

Hi Emiliano,

I'm just a bit confused. I have to forward this request on to EOTSS so I want to make sure I'm framing everything properly:

* You want the date range for communications requested in Part II, Numbers 3 and 4 to be Feb. 16, 2017 – present.

* You ONLY want to limit communications requested in Part II, Numbers 3 and 4 to those that mention the email address MSP-DL-FacialRecES@massmail.state.ma.us <mailto:MSP-DL-FacialRecES@massmail.state.ma.us> .

* For those communications in Part II, Numbers 3 and 4 that mention the email address MSP-DL-FacialRecES@massmail.state.ma.us <mailto:MSP-DL-FacialRecES@massmail.state.ma.us> , you further want to limit the results to those that contain the following terms:

a. "fac! Recognition"

b. "FR"

c. "RMV"

b. "L-1"

c. "IDEMIA"

d. booking /2 (photo OR pic!)

e. driver! /2 (photo OR pic!)

f. search!

g. investigate!

h. database

Is all of this accurate?

Thanks,

Jason

Hi Jason,

Thank you for the email. We would like the following:

1. Limit the date range for II.3 to all communications since February 16, 2017;

2. Please send us all the emails that mention the following address “MSP-DL-FacialRecES@massmail.state.ma.us <mailto:MSP-DL-FacialRecES@massmail.state.ma.us> .“

3. Use the following combination of search terms in the remaining emails:

* “fac! Recognition” OR “FR” if you can perform case match searches) + …

a. “RMV”

b. “L-1”

c. “IDEMIA”

d. booking /2 (photo OR pic!)

e. driver! /2 (photo OR pic!)

f. search!

g. investigate!

h. database

Moreover, please note that this reply does not in any way signal that we agree to pay any fees.

Hi Emiliano,

The emails in question are related to Part II, numbers 3 & 4 of your request.

We generally do not parse out portions of requests but rather treat an entire request as a whole when generating a cost estimate and fee petition. Therefore we will need to determine your final list of search terms first. Then we will generate a cost estimate for the whole request which will include the emails we previously discussed along with all other potentially responsive documents.

Please let me know how you wish to proceed.

Regards,

Jason

Hello Emiliano,

I'm still working on compiling everything and given the circumstances we will likely still submit a fee petition to the secretary of state.

In the meantime, I have received word from EOTSS after you provided the most recently amended list of search terms. The new total is 230,534 emails which amounts to approximately 180gb of data. Please let me know if you wish to further reduce the list of search terms or proceed with these numbers.

Even putting the issue of fees aside, I ran a time calculation based on previously accepted fee petitions which use a 3 minute per email timeframe for reviewing and redacting documents. The results are that 230,534 emails would take a full time employee dedicated exclusively to this task approximately 6 years worth of 8 hour work days to complete. This is just for reference purposes to give you a sense of the magnitude of a request this size.

Please let me know how you wish to proceed.

Thank you,

Jason

Hello Emiliano,

I have heard back from EOTSS regarding the email search. The search terms you provided resulted 1,591,916 emails. Let me know if you would like me to proceed with a cost estimate or if you would like to alter the request to reduce the number of results. Just doing some quick math, just an estimate for the emails alone would be just shy of two-million dollars ($2,000,000). That figure does not include the cost of reviewing and redacting any additional records produced pursuant to your request. Please let me know how you wish to proceed and I would be happy to work with you going forward.

Have a great weekend.

Regards,

Jason

Thank you, Jason.

The second option you mention sounds fine. Please use the search terms we provided.

Thanks.

Hello Emiliano,

Thank you for your reply. I've contacted EOTSS regarding the search related to your public records request. Unfortunately, while EOTSS can specifically focus their search on our agency as a whole, or individual members of our agency, they cannot limit their search to communications between our agency and the FBI or RMV using existing parameters. However, if you are aware of a specific domain or email address within the FBI and RMV that you want us to focus on, please provide same and EOTSS will be able to incorporate that into the search parameters. Otherwise, we can run a search using the keywords you provided below

which will pull all emails to or from our agency's users that contain those keywords.

Please let me know how you wish to proceed.

Thank you,

Jason

Subject: RE: Public Records Request (facial recognition 07.25.2019)

Hi Jason,

Good afternoon. I am writing you back with the clarifications that you asked.

1.) For all of Part II, we are referencing all the records related to the Compliance Unit, the taskforce that the MSP has with the RMV, and any other MSP unit that uses facial recognition technology.

2.) Please start with the following search terms for Part 2, paragraph 3. We will let you know if we need to add other search terms after:

a. "RMV"

b. "facial rec"

c. "FR"

d. "face rec"

e. "facial recognition"

f. "face"

g. "facial"

h. "L-1"

i. "IDEMIA"

j. "impostor"

k. "imposter"

l. "true license holder"

m. "booking photo"

n. "drivers license picture"

o. "drivers license photo"

p. “MSP-DL-FacialRecES@massmail.state.ma.us <mailto:MSP-DL-FacialRecES@massmail.state.ma.us> ”

3.) As to paragraph 4 of Part 2, we are asking for all the emails between the MSP and the RMV that relate to facial recognition.

4.) Also, please note that paragraph 4 of Part 2 is not limited to emails: We are also asking for policy memos, official forms, and any other type of communications.

Please let me know if you have any doubt or concern.

Thank you!

Best,

Emiliano

Hello Emiliano,

Thanks for your reply. We actually cannot run email searches, we have to request through another agency called EOTSS. We are just required to provide them with search terms and they can conduct the search of emails to our from our agency users as long as they have date parameters and search terms.

Thanks,

Jason

Hi Jason,

Thank you for this email. I will be back shortly with these clarifications.

As to the third bullet of your email, can you give me an idea of the search capabilities that you have? We would like to know that so we can provide you with some terms to narrow the search.

Thank you.

Best,

Emiliano

Kade,

My apologies, I saw your name signed to the latest public records request and had assumed it was from you. I then noticed from the actual email that it was sent from Emiliano Falcon.

Mr. Falcon – please see my email below. Just trying to get some clarification on a few items within the request. Email is best but my direct line is also listed below.

Best,

Jason

Subject: Public Records Request (facial recognition 07.25.2019)

Hi Kade,

I have been assigned your most recent public records request. I wanted to touch base to clarify a couple of your requests:

* In part II of your request, you mention our Compliance Unit

In part II of your request, you mention our Compliance Unit as well as an “Enforcement Services Unit.” MSP does not have such an Enforcement Services Unit. I’m not sure if you were speaking of the Compliance Unit generally or referencing a different unit or division?

* In Part II, Paragraph number 3, you are seeking email communications between MSP and the FBI pertaining to facial recognition searches or capabilities. In order to conduct an email search, we need actual search terms so we can make a request through EOTSS.

* In Part II, Paragraph number 4, you are seeking email communications between MSP and the RMV. Are you asking for every single email dating back to 2.16.17 or do you want to limit that to facial recognition as well?

Thanks,

Jason
