Hi Joseph,

Want to take the manpower out of analyzing countless hours of digital evidence and identify your person of interest?

Artificial intelligence can lighten your workload and act as your new area partner, comparing surveillance data to known offender and booking databases using facial recognition. With Veritone, you can quickly identify suspects, objects, and dialogue in a matter of minutes.

Do you have time for a brief call early next week to discuss how we can help you find more leads?

For more information, see this [video](#) of our platform in action.

Best Regards,

Randa Akeel

Mike.

I think it would be beneficial for Deputy Chief Oliveira to have an understanding of your services. I have attached him on this email.

Chief Cordeiro,

Good afternoon, I hope you had a great Independence Day yesterday! I'm circling back with you as we did a web demo a while back and then at MCOPA you mentioned wanting to have your deputy Chief and maybe some other folks see a demo as well. Is that still the case? If so, who should I contact to set something up?

Best,

Chief Cordiero,

Thanks again for your time this morning. Hopefully you found it worthwhile!

Per our discussion, here are two videos that you can show to help relate some of the things our platform is able to do. One is the example you saw today and the other is a walkthrough of a mock robbery where the subjects face isnt recognizable in the crime scene video.

I hopefully will be at the MCPA Meeting on the 11th but if not, would be happy to come by for a meeting another time as well with your team.

Best,

Chief Cordeiro,

I appreciate you getting back to me and I'd be happy to coordinate with Kathleen.

Are you available next week on Tuesday, February 27th or Wednesday, February 28th for a brief call/demo? It should only take about 30 minutes of your time. Please let me know what times work best or a date in March if that works better with your schedule.

Thank you again and I look forward to speaking with you soon!

Hi Joseph,

I hope you are well. Just circling back on my last note regarding accelerated suspect identification using facial recognition technology.

When are you available for a brief call to discuss how Veritone uses artificial intelligence to enhance your investigations?

For more information, please refer to our [recent whitepaper](#) pertaining to known offender-related cases and digital evidence analysis.
